EXPERIENCE

Student Research Assistant

University Research Lab 📅 January 2026 - Present 📍 Los Angeles, CA

Contributed as a Student Research Assistant working on innovative projects within Otolaryngology. Focused on direct patient assessments, documentation in Electronic Health Records, and collaboration with healthcare providers.

- Conducted patient assessments, recording findings in Electronic Health Records for ongoing research precision.
- Collaborated with healthcare professionals to create educational materials that improved patient understanding.
- Participated in therapeutic procedures under supervision, gaining practical skills related to ENT care routines.
- Assisted in organizing follow-up appointments, ensuring comprehensive continuity of care for research participants.
- Maintained strict confidentiality and adherence to HIPAA regulations regarding sensitive patient information.
- Presented research results effectively at academic conferences, showcasing strong communication abilities.

Clinical Intern

HealthCare Intern 📅 June 2025 - December 2025 📍 Los Angeles, CA

Acted as a Clinical Intern supporting care delivery in a bustling healthcare environment. Engaged regularly with patients and families, facilitating education about treatment options while honing data management skills.

- Supported the evaluation and treatment planning for a wide range of patients in a demanding healthcare setting.

MY CAREER

● Student Research Assistant at University Research Lab (6 Months)

● Clinical Intern at HealthCare Intern (6 Months)

- Interacted with patients and families, communicating effectively to explain treatment plans and ensure compliance.
- Engaged in daily rounds with the medical team, contributing valuable insights during patient management discussions.
- Gained valuable skills entering patient records with accuracy, assuring compliant and timely updates.
- Developed healthy relationships with healthcare professionals, fostering a collaborative work culture.
- Streamlined appointment management processes for scheduling and patient follow-ups, enhancing operational efficiency.
