

STRENGTHS

-  **Psychiatric medical care**
Managed physical health needs in inpatient behavioral health settings, and teams relied on clear clinical judgment during difficult cases.
-  **Medication safety**
Reviewed adverse reactions, interactions, and prescribing risks. A careful second look often prevented a small concern from becoming larger.
-  **Complex case review**
Turned complicated medical records into practical recommendations, giving nurses and physicians a clearer path during case discussions.
-  **Clinical education**
Trained health care and support personnel through case review, using plain explanations that made escalation decisions easier to follow.
-  **Inpatient assessment**
Combined focused examinations with timely treatment for illness and injury, helping clinical teams respond without losing continuity.

SUMMARY

Board certified **internal medicine** physician with 8 years of **full licensure practice** since July 2018, including **direct medical care** in behavioral health and inpatient settings. Performs physical examinations, evaluates illness and injury, manages preventive health needs, and coordinates treatment for patients receiving psychiatric services. Reviews **adverse drug reactions**, drug interactions, controlled substance risks, and medically complex cases with careful clinical judgment. Provides consultative support, clear documentation, interdisciplinary case review, and practical education for nurses and support personnel. Holds active Michigan physician and controlled substance licenses, current BLS and ACLS certificates, and accredited internal medicine residency training. Ready to help Northstar Behavioral Health Center deliver safe, responsive medical care for psychiatric inpatients.

EXPERIENCE

Attending Physician, Behavioral Health Medical Services

Lakeshore Integrated Medicine  May 2024 - Present  Dearborn, MI

- Leads direct medical services for inpatient behavioral health patients, supporting examinations, illness assessment, medication safety, consultative review, and interdisciplinary clinical decisions. Guides nursing and support personnel through practical case review and clear documentation.
- Managed inpatient behavioral health conditions through focused examinations and timely medical treatment.
 - Reviewed medication interactions and adverse reactions, protecting patients during psychiatric treatment.
 - Assessed **injuries** and acute illness, coordinating follow up with clinical teams.
 - Consulted on **complex cases**, giving physicians and nurses clear medical recommendations.
 - Trained **support staff** on case review, documentation, and escalation of medical risks.
 - Strengthened care consistency through checklists, verification steps, and concise handoffs.

Internal Medicine Physician

Cedar Point Medical Group  August 2021 - April 2024  Novi, MI

- Provided adult medicine, preventive care, **controlled substance prescribing**, and behavioral health coordination across outpatient and complex medical encounters. Balanced independent clinical decisions with careful consultation, documentation, and continuity planning.
- Managed adult **medical conditions** through examinations, diagnosis, treatment, and preventive interventions.
 - Evaluated controlled substance risks alongside psychiatric medications and patient safety needs.
 - Reviewed **adverse drug reactions** and interactions, resolving concerns before treatment changes.
 - Coordinated behavioral health care with specialists, nurses, and support personnel.
 - Documented **complex cases** clearly, supporting continuity, review, and informed clinical decisions.
 - Applied structured verification steps that improved consistency across medication and referral workflows.

Hospitalist Physician

Riverbend Community Hospital  July 2019 - July 2021  Flint, MI

- Delivered acute **inpatient medicine** for medically complex adults, with responsibility for examinations, urgent response, medication review, multidisciplinary rounds, and safe transitions. Supported rapid clinical decisions through focused assessment and reliable communication.
- Managed acute inpatient illness through examination, diagnosis, treatment, and reassessment.
 - Evaluated medication interactions during hospital treatment, reducing avoidable clinical risk.
 - Assessed injuries and urgent symptoms, initiating appropriate first aid and escalation.
 - Presented **complex cases** during multidisciplinary rounds, aligning treatment decisions across services.
 - Maintained precise records that supported safe handoffs and continuity after discharge.

MY CAREER

● Attending Physician, Behavioral Health Medical Services at Lakeshore Integrated Medicine (2.3 Years)

● Internal Medicine Physician at Cedar Point Medical Group (2.7 Years)

● Hospitalist Physician at Riverbend Community Hospital (2 Years)

● Internal Medicine Physician at Maple Grove Internal Medicine (11 Months)

- Used concise clinical communication during urgent response, helping teams act with confidence.

Internal Medicine Physician

Maple Grove Internal Medicine 📅 July 2018 - June 2019 📍 Lansing, MI

Delivered post residency adult medical care with emphasis on **physical examinations**, injury assessment, preventive screening, treatment planning, and specialty referrals. Built a strong foundation in independent practice, documentation, and patient safety.

- Managed adult medicine visits through physical examinations, diagnosis, and treatment planning.
- Assessed injuries and illness, selecting appropriate medical treatment and follow up.
- Delivered preventive screening and health counseling across diverse adult patient needs.
- Reviewed medication concerns and escalated clinically significant risks for specialist input.
- Coordinated referrals with receiving clinicians, preserving clear context and continuity.
- Documented clinical findings accurately, supporting safe decisions and reliable care transitions.

PROJECTS

Behavioral Health Medical Review Program 📅 2025

Established a structured review approach for inpatient behavioral health cases, linking examinations, medication safety, preventive needs, and escalation decisions through clear clinical documentation.

Psychiatric Medication Safety Review 📅 2024

Applied focused review of adverse drug reactions, drug interactions, and controlled substance risks across psychiatric care, supporting safer treatment decisions and stronger interdisciplinary communication.
