EXPERIENCE

Senior UX Designer

Creative Design Agency 📅 January 2020 - Present 📍 Los Angeles, CA

Overseeing UX design projects focused on voice user interfaces and multimodal applications. Driving innovation through intelligent design strategies using AI, while collaborating closely with engineering and product management teams.

- Spearheaded design initiatives that improved user satisfaction scores significantly by optimizing voice interactions across key platforms.
- Collaborated tightly with engineers to integrate natural language processing features into products, enhancing overall functionality.
- Conducted extensive user research sessions that informed design direction and led to measurable improvements in usability.
- Formulated guidelines promoting consistency in voice interface design across diverse applications, fostering a unified user experience.
- Provided mentorship to junior designers in adopting agile methodologies and UX principles, nurturing a productive work environment.
- Showcased design components to executives, reflecting strategic decisions taken to align with business goals.

UX Designer

Innovative Software Solutions 📅 March 2016 - December 2019 📍 New York, NY

Focused on voice user interface and experience design, working collaboratively with research teams to incorporate advanced AI functionalities, enriching user engagement.

- Identified user needs through research, leading to prototypes that optimally defined interaction models for presidential applications.
- Partnered with AI experts to translate complex NLP algorithms into actionable voice commands, drastically improving task completion rates.
- Facilitated workshops aimed at brainstorming innovative design solutions with generative AI applications to solve real-world problems.
- Utilized insights from competitive analysis to iterate rapidly and refine preliminary designs based on formative user feedback.
- Promoted a dedicated focus on ensuring ethical considerations concerning AI technology influenced all design decisions.
- By staying abreast of AI developments, guided the evolution of interactive design principles throughout the organization.
