STRENGTHS

- 💡 **Problem Solving**
Translates complex challenges into clear solutions; reliable in resolving urgent development setbacks.
- 👥 **Collaboration**
Works well with diverse teams. Communication skills shine when bringing groups together on shared goals.
- ⚙️ **Innovation**
Integrates cutting-edge tools for faster development. Derived tangible efficiencies through smart tool adoption.
- 🔄 **Adaptability**
Thrives under changing priorities, demonstrating resilience and flexibility in dynamic contexts.
- 👍 **Critical Thinking**
Enhances decision-making with analytical foresight, balancing immediate concerns against long-term consequences.

SUMMARY

Driven full-stack engineer with over six years of experience in designing and deploying user-friendly applications. Committed to solving customer problems, not just writing clean code. Possess hands-on experience with Postgres and TypeScript, skilled at integrating AI tools for improved efficiency. Successfully launch end-to-end features by translating technical challenges into actionable steps. Thrive in fast-paced environments, embracing changes while prioritizing product demands. Prior work involved collaborating closely with diverse teams to deliver outstanding solutions that exceeded user expectations and business goals. Eager to leverage experience and passion for innovation at TechWave Solutions.

EXPERIENCE

Full Stack Engineer

Innovatech Solutions 📅 June 2021 - Present 📍 Austin, TX

Developed and maintained scalable web applications utilizing TypeScript and Postgres. Actively sought feedback from product managers to refine project details and achieve strategic objectives. Implemented AI-assisted coding tools, significantly shortening development timelines. Drove continuous improvement initiatives within the team.

- Designed and implemented modern web applications that enhanced end-user engagement and transformed data management processes.
- Collaborated with product managers to define pragmatic project scopes, ensuring alignment between tech builds and market needs.
- Integrated AI technology to optimize workflows, achieving a faster feature rollout cycle and superior product quality.
- Oversaw code revisions and pair programming sessions to boost team efficiency and collaborative efforts.

Junior Full Stack Developer

DataCore Technologies 📅 January 2019 - May 2021 📍 Seattle, WA

Worked on developing web applications using React and Node.js with a strong focus on responsiveness and performance. Contributed actively to establishing CI/CD pipelines for seamless deployment, directly reducing downtime.

- Engaged in rigorous debugging quests, promptly fixing production issues to maintain high operational reliability and performance.
- Implemented responsive web designs that elevated user interaction, fostering more enjoyable experiences across devices.
- Participated in backlog grooming sessions to prioritize development tasks based on stakeholder feedback and software roadmaps.
- Produced detailed documentation practices to enhance clarity and continuity in project development and maintenance.

Intern

Codify Labs 📅 June 2017 - December 2018 📍 Los Angeles, CA

Provided support for the development team while working on educational projects. Engaged in creating data visualization tools utilizing JavaScript and D3.js alongside hands-on coding practices.

- Assisted in constructing an interactive data visualization platform that bridged user interfaces with backend data effectively.
- Contributed meaningfully to the collective code review sessions, providing insight and critique beneficial for product enhancements.
- Got involved in crafting instructional content aimed at improving team knowledge about coding standards and best practices.
- Gathered input from peers during testing phases, refining application functionality based on direct user suggestions.

MY CAREER

● Full Stack Engineer at Innovatech Solutions (5 Years)

● Junior Full Stack Developer at DataCore Technologies (2.3 Years)

● Intern at Codify Labs (1.5 Years)

LEADERSHIP & AWARDS

- Recognized as 'Excellent Performer' at Innovatech Solutions for outstanding contribution to product delivery.
- Awarded 'Team Player of the Month' at DataCore Technologies after facilitating successful integrations in ongoing projects.

EDUCATION

Bachelor's Degree in Computer Science

University of California, Los Angeles 🎓 GPA: 3.8 📅 2017 📍 Los Angeles, CA

Coursework: Algorithms, Data Structures, Software Engineering, Web Development

CERTIFICATIONS

- Certified Full Stack Developer 📅 2022
- AWS Certified Solutions Architect 📅 2023

TECHNICAL SKILLS

- **Version Control Systems:** Git
- **Web Technologies:** HTML, CSS
- **Cloud Services:** AWS
- **Back-End Technologies:** Node.js, Express
- **Front-End Frameworks:** React
- **Database Management:** PostgreSQL
- **Testing Frameworks:** Jest, Mocha
- **Project Management Tools:** JIRA
- **Development Methodologies:** Agile, Scrum
- **API Development:** RESTful Services

PROFESSIONAL AFFILIATIONS

- Active member of Women Who Code, promoting diversity in technology through mentorship and community engagement.
- Volunteer coder at Denver Public Library, offering free coding workshops to local high school students.
