STRENGTHS

- 🎯 **Product direction**
Set clear priorities during payment initiatives, and teams used that structure when decisions became difficult.
- 👥 **Stakeholder alignment**
Brought business, technology, and operations voices together, helping discussions move from concern to action.
- ♥️ **Risk awareness**
Used structured reviews to expose workflow risks early. That habit gave partners more confidence in delivery.
- 💬 **Executive communication**
Turned analysis into concise updates for leaders, making complex initiatives easier to discuss and guide.
- ⚙️ **Process improvement**
Reworked reporting and governance routines after noticing repeated gaps, creating smoother follow through for teams.

SUMMARY

Payments product manager with experience guiding business initiatives, operational improvements, governance practices, reporting, and cross functional delivery in banking. Leads priorities from planning through execution, bringing business partners, technology teams, and operational groups together around clear outcomes. Uses analytics and structured reviews to identify risks, opportunities, workflow gaps, and practical improvements. Develops documentation, reporting processes, planning materials, and executive updates that support sound decisions. Experience includes payments, receivables, **treasury products**, **product development life cycle** activities, **requirements definition**, **operational readiness**, and regulated banking environments. Brings a steady focus on customer value, resilient delivery, control awareness, and clear communication across complex initiatives. Prepared to contribute thoughtful product direction and dependable execution within a public sector payments organization.

EXPERIENCE

Payments Product Manager

Riverstone Banking Group 📅 January 2022 - Present 📍 Chicago, IL

Owns **payment product initiatives**, operational improvement efforts, governance routines, reporting, and stakeholder coordination across banking teams. Supports planning, delivery, risk review, documentation, and **executive communication** for complex business priorities.

- Led payment initiative priorities through structured planning, stakeholder reviews, and delivery tracking for banking operations.
- Created reporting processes and decision documents that gave leaders clearer insight into operational priorities.
- Applied analytics and structured reviews to surface payment risks, workflow gaps, and improvement opportunities.
- Coordinated business partners, **technology** teams, and **operations** groups through requirements and delivery discussions.
- Updated workflows and **governance** practices, giving teams more consistent methods for operational execution.
- Prepared strategic analysis, planning materials, and executive updates for **complex cross functional initiatives**.

PROJECTS

Payment Operations Governance 📅 2024

Improved decision quality through clearer documentation, structured risk reviews, and shared operating practices for payment initiatives.

Receivables Reporting Framework 📅 2023

Connected reporting needs with operational planning, helping stakeholders review receivables priorities, risks, and customer value decisions.

LEADERSHIP & AWARDS

- Recognized by banking stakeholders for clear planning materials and dependable initiative coordination.
- Commended for improving reporting consistency and supporting informed operational decisions.
- Provided peer leadership through practical governance documentation and structured review practices.
