

Juan Arias

Quantitative Developer Intern

JUNE 11, 2026

Hiring Manager
Revantage Solutions, LLC
Chicago, IL

Dear Hiring Manager,

I am excited to apply for the Quantitative Developer intern role at Revantage Solutions, LLC, considering this position perfectly aligns with my skills and aspirations while presenting an opportunity to significantly contribute within a collaborative and innovative environment.

At Tech Solutions Group, I developed robust C# applications to streamline complex financial analyses, improving efficiency significantly. These experiences granted me invaluable insights into financial modeling, underpinning my recent projects in a way that sparked my deep interest in real estate investment.

Eager to implement my knowledge, I focused on analyzing complex data, which helped my team identify areas ripe for improvement. Even before forming a deeper bond with various tools, I sometimes felt the daunting nature of technical specifications. Yet, my determination often pushed me to surpass expectations, engaging with counterparts in tangible efforts that improved outcomes.

I cherish collaboration as a crucial element for effective synergy. Working with finance professionals enriches my coding perspective, exposing me to practical challenges. This not only fuels my learning but also ensures our team meets evolving business objectives.

Warm regards,

Thanks,

Juan Arias
