SUMMARY

Regional solution sales leader with nine years of B2B experience advancing complex technical offerings across industrial and connectivity focused accounts. Builds qualified pipeline, develops strategic account plans, manages **Salesforce CRM** data, and converts customer challenges into commercially sound solutions. Leads consultative sales across direct enterprise and distributor channels, using **Strategic Selling, Account Planning, Funnel Management**, forecasting, and competitive analysis to improve opportunity quality. Partners with Engineering, Marketing, Product, and Finance on proposals, technical evaluations, negotiations, and measurable customer outcomes. Creates trusted relationships with operations leaders, engineers, procurement teams, executives, and distribution partners. Brings clear presentations, disciplined territory decisions, and steady commercial judgment to regional growth efforts, with a practical focus on revenue, account expansion, reactivation, and customer value.

EXPERIENCE

Regional Solution Sales Manager

VectorLink Industrial Solutions 📅 July 2023 - Present 📍 Kansas City, MO

Direct a multi state **industrial connectivity** portfolio across customer modernization, expansion, distributor, and direct enterprise opportunities. Own regional planning, Salesforce pipeline quality, executive engagement, quarterly account reviews, and cross functional deal execution with Engineering, Marketing, Product, and Finance.

- Built Salesforce account plans linking executive priorities, technical use cases, buying roles, and next actions.
- Applied **Strategic Selling** and **Funnel Management** during modernization pursuits, improving qualification and deal strategy.
- Led executive discovery and negotiations for multi site packages with **Engineering** and Finance support.
- Reactivated dormant distributor and end user accounts through purchase history and market analysis.
- Ran quarterly account reviews with **Product** and **Marketing**, surfacing requirements and competitive signals.
- Directed regional connectivity opportunities across industrial accounts, distributors, and direct enterprise customers.

Senior Account Executive

AxisPoint Network Products 📅 March 2020 - June 2023 📍 Omaha, NE

Managed consultative B2B sales for network infrastructure and industrial communication products. Guided opportunities from discovery through technical evaluation, proposal, **negotiation**, and forecast review while coordinating solution engineers, customers, distribution partners, and internal stakeholders.

- Mapped operations, engineering, procurement, and executive stakeholders across complex infrastructure opportunities.
- Maintained evidence based Salesforce stages, close plans, **forecasts**, and opportunity next steps.
- Converted discovery findings into proposals connecting technical requirements with measurable business outcomes.
- Coordinated demonstrations and technical evaluations with solution engineers for customer buying teams.
- Negotiated pricing, scope, and delivery expectations with customers and **distribution partners**.
- Managed consultative B2B opportunities across **network infrastructure** and **industrial communication products**.

Account Manager

Midland Controls Group 📅 September 2017 - February 2020 📍 Wichita, KS

STRENGTHS

- 🗨 **Consultative selling**
Turned technical discovery into practical proposals, and one customer conversation became a wider account expansion plan.
- 🏗 **Account strategy**
Built account plans around buying roles and executive priorities. Colleagues often sought help when pursuits became tangled.
- 👥 **Executive engagement**
Led clear discovery and negotiation sessions with senior stakeholders, earning confidence without overcomplicating technical details.
- ♥ **Pipeline discipline**
Kept Salesforce stages, close plans, and forecasts grounded in evidence. That habit made quarterly reviews far more useful.
- 🔧 **Cross functional delivery**
Worked with Engineering, Marketing, Product, and Finance to shape credible solutions. Good handoffs kept customer momentum intact.

MY CAREER

● Regional Solution Sales Manager at VectorLink Industrial Solutions (3.2 Years)

● Senior Account Executive at AxisPoint Network Products (3.2 Years)

● Account Manager at Midland Controls Group (2.4 Years)

Developed an industrial territory through structured prospecting, distributor relationships, customer discovery, and solution presentations. Combined CRM discipline with market observation and applications support to build durable accounts and create commercially credible proposals.

- Developed an industrial territory through structured prospecting and distributor **relationship building**.
- Maintained CRM records covering **customer needs**, competition, technical requirements, and next steps.
- Presented control and connectivity solutions to plant, engineering, and purchasing teams.
- Partnered with applications specialists to verify solution fit and translate constraints into proposals.
- Monitored **competitor activity** and investment patterns, prioritizing accounts with timely engagement.
- Built durable channel and customer relationships through accurate commitments and reliable follow through.

PROJECTS

Regional Connectivity Growth Program 📅 2026

Connected territory planning, Salesforce pipeline reviews, quarterly account planning, and distributor reactivation into one practical growth program for industrial accounts.

Industrial Account Expansion Framework 📅 2024

Created a repeatable account planning approach linking executive priorities, technical use cases, competitive signals, buying roles, and commercial next actions.

LEADERSHIP & AWARDS

- Recognized for regional leadership across complex industrial connectivity opportunities and multi stakeholder customer engagements.
- Selected for consistent Salesforce pipeline discipline, clear forecasting, and practical account planning contributions.
- Earned customer trust through thoughtful presentations, dependable commitments, and calm negotiation during complex pursuits.
