EXPERIENCE

Clinical Dietitian

University Project 📅 May 2025 - Present 📍 Remote

Engaged as a Clinical Dietitian in a simulated environment, supporting nutritional assessments and developing personalized care plans for various health conditions. Collaborated cross-functionally with a team focusing on quality improvement metrics, enhancing patient satisfaction during simulations.

- Conducted comprehensive nutritional assessments based on health conditions in project scenarios.
- Developed educational materials on nutrition, increasing peer knowledge and practical application in the field.
- Implemented evidence-based guidelines, ensuring adherence to best practices throughout simulation exercises.
- Collaborated with multidisciplinary teams to review quality metrics, refining student outcomes and experiences.
- Mentored junior students in assessment techniques, helping them build vital clinical skills.
- Participated in workshops centered around emerging trends to stay current in the field.

Nutrition Research Assistant

Academic Research 📅 January 2025 - May 2025 📍 Remote

Assisted with impactful research projects surrounding dietary patterns, significantly contributing to chronic disease management insights. Supported faculty in creating academic presentations by analyzing data and synthesizing findings.

- Collected and analyzed data from dietary surveys, bolstering research findings and conclusions.
- Collaborated closely with faculty to prepare presentations, boosting visibility for the research initiative.
- Engaged in profound literature reviews, infusing evidence-based principles into our study context.
- Developed resources sharing important insights from research, positively impacting the academic community.

- Presented findings to stakeholders, reinforcing the connection between nutrition and chronic disease management.
- Contributed actively to discussions concerning research direction and methodologies.

Dietetic Intern

Student Lab 📅 August 2024 - December 2024 📍 Atlanta, GA

Completed immersive clinical rotations within diverse healthcare environments, acquiring hands-on experience in dietetic counseling and patient care. Engaged vitally with clients, personalizing dietary assessments and modifying care plans based on evaluations.

- Conducted patient interviews, developing customized nutrition plans under supervision by experienced mentors.
- Participated in team discussions regarding patient progress, actively adapting plans based on the dialogue.
- Took part in community health workshops designed to educate and empower local populations about nutrition.
- Worked on enhancing service delivery through participation in quality improvement projects focused on nutrition accountability.
- Cultivated positive rapport with patients, consistently receiving feedback for effective communication.
- Demonstrated adaptability and eagerness to learn in rapidly evolving healthcare setting.
