SUMMARY

Compassionate Registered Nurse with over 5 years of experience in case management and patient advocacy. Strong track record in creating personalized care plans that merge clinical necessities with individual patient values. Skilled communicator, effectively collaborating with multidisciplinary teams to maximize patient outcomes. Deep commitment to promoting high-quality care during patients' recovery journeys. Experience includes advocating for access to necessary resources, evaluating medical requirements meticulously, and fostering smooth transitions for patients. Dedicated to ensuring patients receive appropriate support from admission through their recovery.

EXPERIENCE

Registered Nurse - Case Management

June 2021 - Present

WellCare Health Services

Green Bay, WI

Lead the development of individualized care plans in a fast-paced healthcare environment, facilitating successful patient recoveries and discharges.

- Developed tailored care strategies focusing on patient values and clinical essentials for effective recovery.
- Actively advocated for patients by identifying and removing obstacles to care, enhancing their journey toward recovery.
- Critically evaluated medical necessity and documentation practices, ensuring timely access to appropriate care.
- Collaborated with multidisciplinary teams and insurance agencies, streamlining post-acute services while maximizing benefits.

Registered Nurse

January 2018 - May 2021

HealthPlus Medical Center

Appleton, WI

Provided empathetic, patient-centered care within a bustling hospital, enhancing outcomes and satisfaction across diverse patient populations.

- Delivered clinical support and ensured continuity of care as part of enhanced interdisciplinary collaboration.
- Assisted in formulating comprehensive care plans along with health professionals, prioritizing seamless transitions.
- Monitored and assessed patient responses diligently, adjusting care approaches based on real-time evaluations.
- Educated patients on procedures and treatments, bolstering understanding and adherence throughout care processes.
