EXPERIENCE

Registered Nurse

Healthcare Innovations 📅 January 2024 - Present 📍 Chicago, IL

Deliver high-quality nursing care in a fast-paced ICU. Engage with interdisciplinary teams to develop and execute comprehensive patient-centered care plans. Observe and adjust interventions based on thorough assessments and continuous monitoring of patients' statuses. Maintain clear documentation of all patient interactions and collaborate actively during shift transitions to sustain quality care.

- Provide direct patient care according to established routines and protocols, ensuring comfort and safety.
- Collaborate with healthcare professionals to design, implement, and evaluate care strategies aimed at optimal outcomes.
- Conduct regular monitoring and assessments, responding promptly to any changes in patients' conditions.
- Engage in discharge planning alongside the multidisciplinary team, facilitating smooth transitions for patients.

Registered Nurse

Wellness Hospital 📅 June 2021 - December 2023 📍 Chicago, IL

Administered essential nursing care to critically ill patients within the ICU department. Developed strong rapport with patients and their families through empathetic care and open communication. Effectively managed records by documenting patient conditions and shared information systematically with healthcare teams. Took part in discharge planning meetings, streamlining follow-up for a continuum of care after hospital stays.

- Executed nursing responsibilities following best practices to maintain high standards of patient care.
- Ensured effective communication with team members regarding patient status updates and treatment modifications.
- Participated actively in clinical rounds, reporting vital findings and ensuring collaborative response efforts.
- Supported post-discharge arrangements, providing education and reassurance to patients and families regarding recovery.

Nurse Intern

City Health Center 📅 August 2019 - May 2021 📍 Chicago, IL

Assisted seasoned nurses in various capacities, focusing on gaining practical skills in acute care delivery. Engaged with patients directly, providing support and education during their recovery phases. Aided in numerous nursing procedures, expanding hands-on experience within diverse healthcare settings.

- Supported patient care collaboratively, delivering services under experienced supervision.
- Facilitate patient education initiatives to promote healthy recovery pathways.
- Acquired hands-on exposure to vital nursing tasks including medications administration and vital signs monitoring.
