STRENGTHS

 **Patient-Centric Approach**
Consistently prioritizes patient needs, fostering a compassionate environment. Feedback reveals strengthened patient trust and recovery comfort.

 **Collaboration Skills**
Promotes teamwork and diverse input, resulting in enhanced care strategies. Collective brainstorming sessions directly influenced improved patient outcomes.

 **Effective Communication**
Clearly conveys complex information, making medical topics relatable to patients and families. Received commendations for regularly engaging bedside dialogues.

 **Quality Improvement Passion**
Actively seeks to refine practices through involvement in quality initiatives. Own contributions led to polished protocols and greater operational effectiveness.

 **Lifelong Learner**
Commits to continuing education, promoting skill acquisition. Staying current ensured familiarity with newest nursing best practices and standards.

Patient Assessment

Care Coordination

Patient Education

Quality Improvement Initiatives

Team Collaboration

Evidence-Based Practice

SUMMARY

Compassionate Registered Nurse focused on medical neurology and critical care nursing. Over two years of experience in conducting patient assessments, coordinating care plans, and educating families in hospital settings. Actively engages with interdisciplinary teams to implement evidence-based practices that enhance patient outcomes. Accorded high praise for building strong patient relationships and contributing positively to collaborative projects aimed at improving healthcare service quality. Certified in CPR and ACLS, ready to take the next step to optimize patient experiences within a dedicated team at HealthFirst Medical Center.

EXPERIENCE

Nursing Student

University Project  August 2024 - May 2026  Chicago, IL

Engaged in extensive simulation training focusing on critical thinking and clinical skills necessary for effective nursing practices. Emphasized communication and teamwork to optimize patient care standard proficiency.

- Conducted comprehensive patient assessments in simulated clinical settings, using nursing protocols to gather health data efficiently.
- Developed individualized care plans based on specific patient needs, ensuring that timely interventions were implemented.
- Collaborated with peers to strategize enhanced patient care initiatives, thereby improving overall clinical outcomes.
- Led educational workshops for families about post-operative care, customizing information to fit different learning styles.
- Participated in quality improvement projects aiming to advance patient safety and efficiency within the hospital simulation.
- Maintained current knowledge of nursing practices and state regulations through ongoing education efforts.

MY CAREER

● Nursing Student at University Project (1.8 Years)

● Nursing Intern at HealthFirst Medical Center (5 Months)

Nursing Intern

HealthFirst Medical Center 📅 January 2025 - June 2025 📍 Arlington Heights, IL

Provided meaningful support to patients in the Medical Neuro Unit while enhancing practical nursing skills under real-world conditions. Contributed significantly to staff initiatives aimed at improving care quality.

- Assisted in patient care activities concentrating on vital signs monitoring and meticulous progress documentation.
- Engaged in daily team discussions regarding patient care plans, adding insights gleaned from clinical assessments and user feedback.
- Supported implementation of evidence-based practice, significantly boosting patient outcomes in critical care scenarios.
- Educated patients and their families on health management, emphasizing compliance with discharge strategies and guidance.
- Participated in interdisciplinary meetings discussing challenges and solutions related to patient care, strengthening collaborative approaches.
- Contributed to creating patient education materials reinforcing clarity and accessibility for diverse demographics.
