SUMMARY

Registered Nurse with three years of clinical experience across **progressive care, medical surgical** nursing, and oncology focused patient care. Applies assessment, planning, implementation, and evaluation to individualized care for adults with complex medical, surgical, chronic, and treatment related needs. Builds clear care plans with patients, significant others, and families, then monitors symptoms, laboratory trends, treatment responses, and changing priorities. Provides thoughtful education about disease processes, medications, procedures, warning signs, and continuing care through teach back. Coordinates physicians, nursing colleagues, ancillary departments, and supportive personnel while protecting patient preferences and safety. Florida licensed RN with an **Associate of Science in Nursing** and **American Heart Association** BLS certification, prepared to support safe, compassionate care in a progressive oncology setting.

EXPERIENCE

Registered Nurse, Progressive Care

May 2025 - Present

Suncrest Medical Pavilion

Orlando, FL

Provides progressive nursing care for adults with complex medical and surgical conditions, including oncology related treatment and supportive care. Leads individualized planning, symptom monitoring, **patient education**, delegation, advocacy, documentation, and coordination across multidisciplinary services.

- Applied **nursing process** assessments for complex **patients**, identifying priorities and evaluating treatment responses.
- Coordinated **oncology** care plans with families, physicians, nurses, and ancillary services each shift.
- Monitored symptoms, laboratory trends, and therapy tolerance, escalating significant changes promptly.
- Used teach back education for diagnoses, medications, procedures, and continuing care expectations.
- Delegated bedside activities within scope, then verified completion for safe patient care.
- Advocated for patient preferences during treatment **planning** and transitions, maintaining complete **clinical documentation**.

Registered Nurse, Medical Surgical

September 2023 - April 2025

Gulfview Community Hospital

Kissimmee, FL

Delivered direct nursing care for adults with acute and chronic conditions across a busy **medical surgical** environment. Managed assessments, medications, treatments, education, ancillary coordination, delegation, documentation, infection prevention, and patient advocacy while supporting continuity of care.

- Completed comprehensive assessments and updated care plans as **patient needs** changed.
- Administered medications and **treatments**, evaluating responses and communicating meaningful changes to providers.
- Prepared **families** for procedures, discharge, disease management, warning signs, and follow up needs.
- Coordinated diagnostic testing, therapy, nutrition, and ancillary services around clinical priorities.
- Delegated bedside activities to **supportive personnel**, verifying completion across busy assignments.
- Maintained accurate documentation, infection prevention practices, and **patient advocacy** throughout admissions.

PROJECTS

Oncology Patient Education Initiative 📅 2025

Partnered with nurses and patients to clarify treatment instructions, symptom reporting, medications, and continuing care needs. Teach back conversations helped families feel heard and better prepared for decisions after discharge.

Progressive Care Coordination Workflow 📅 2024

Worked with nursing colleagues, providers, supportive personnel, and ancillary departments to keep testing, treatment, education, and transition needs visible during inpatient care.

LEADERSHIP & AWARDS

- Patient Advocacy Recognition, acknowledged for clear communication and respectful support during complex care transitions.
- Clinical Team Contribution, trusted by colleagues for dependable follow through during demanding inpatient assignments.

EDUCATION

Associate of Science in Nursing

2023

Valencia College GPA: 4.0

Orlando, FL

Coursework: Adult health nursing, medical surgical nursing, pharmacology, patient assessment
