EXPERIENCE

Nursing Intern

University Project 📅 January 2026 – May 2026 📍 Flint, MI

Supported nursing staff in delivering comprehensive care within a simulated environment, focusing on interventional radiology practices. Developed valuable clinical skills while contributing to team dynamics and patient well-being. Fostered a collaborative approach in assessing and managing post-procedural patient needs for optimal recovery.

- Assisted nursing staff in providing comprehensive care to patients in a simulated clinical environment, focusing on interventional radiology practices.
- Engaged in patient assessments, vital signs monitoring, and assisting with EKG monitoring under the supervision of experienced RNs.
- Participated in educational sessions for patients and families regarding post-procedural care and recovery.
- Collaborated with a multidisciplinary team to develop and implement individualized care plans.
- Conducted research on best practices for patient safety protocols in radiology.
- Received recognition for outstanding performance during clinical rotations.

Student Nurse

Academic Research 📅 August 2025 – December 2025 📍 Flint, MI

Conducted influential research and participated in practical experiences that refined clinical judgment as part of nursing studies, enhancing competencies across varied specialties.

- Conducted research on the effectiveness of wound care management techniques in post-operative patients.

MY CAREER
