- Data Management

SUMMARY

Compassionate respiratory therapist with expertise in cardiopulmonary care. Skilled at delivering tailored assessments, therapeutic interventions, and patient education that promote health and wellness. Passionate about implementing preventative strategies, improving patient outcomes through collaboration with interdisciplinary teams. Demonstrates resilience and adaptability in dynamic environments while maintaining rigorous adherence to clinical protocols and safety standards. Committed to patient advocacy and excellence in service delivery, ensuring the highest quality of care for individuals with diverse respiratory challenges.

EXPERIENCE

Registered Respiratory Therapist

HealthCare Solutions Inc. 📅 January 2025 - Present 📍 Sioux Falls, SD

Administer comprehensive respiratory therapy treatments designed for patients struggling with various respiratory ailments. Collaborates with healthcare staff to implement care plans that improve health outcomes and enhances overall patient experience.

- Conduct holistic assessments to determine patient needs and optimize treatment efficacy.
- Deliver advanced therapeutic interventions such as mechanical ventilation adjustments in intensive care settings.
- Provide clear education to families about respiratory conditions and effective self-care methods.
- Collaborate with medical teams to design interdisciplinary care frameworks for chronic disease management.
- Utilize EHR systems efficiently for documentation, coding services, and tracking patient progress.
- Actively participate in departmental quality improvement projects aimed at raising service level benchmarks.

Respiratory Therapist

Wellness Respiratory Services 📅 June 2023 - December 2024 📍 Sioux City, IA

Provided respiratory care solutions in a busy clinic environment focusing on patient-centered approaches. Engaged in assessing, monitoring, and educating patients on respiratory health management.

- Assisted in developing individualized care strategies rooted in evidence-based practices.
- Implemented teaching modules enhancing patient knowledge surrounding respiratory diseases and rehabilitation.
- Regularly evaluated lung function indicators to inform ongoing patient treatment pathways and goal-setting.
- Expanded professional development by attending workshops on current respiratory therapy trends.
- Contributed actively to departmental brainstorming sessions focusing on patient safety enhancements.
- Partnered cross-functionally to interpret diagnostic results, facilitating prompt clinical actions.
