SUMMARY

Compassionate and dedicated Registered Nurse with over 2 years of experience in rehabilitation settings. Proven track record in providing high-quality patient-centered care through comprehensive assessments, individualized care plans, and close collaboration within multidisciplinary teams. Advocate for patient safety and well-being, excelling in communication and rapport-building with patients and families. Committed to monitoring patient progress and aligning treatment with best practices. Empowering patients post-surgery and throughout recovery, while maintaining a safe, organized environment. Eager to impact lives positively as part of the Health First Staffing team.

EXPERIENCE

Rehabilitation Nurse

June 2025 - Present

Health Alliance Medical Center

Chicago, IL

Deliver exceptional care as a Rehabilitation Nurse, focusing on individualized patient progression and collaboration with interdisciplinary teams. Maintain thorough documentation and ensure adherence to healthcare standards. Engage with diverse patient populations, offering support and guidance tailored to their unique recovery journeys.

- Conduct comprehensive nursing assessments to develop detailed care plans for rehabilitation patients.
- Collaborate effectively with interdisciplinary teams, adjusting care protocols based on continuous monitoring of patient outcomes.
- Educate patients and families on procedures and post-operative care, facilitating smoother transitions back to daily living.
- Administer medications in adherence to established protocols, ensuring patient safety and compliance with health regulations.

Nursing Assistant

January 2024 - May 2025

Wellness Rehabilitation Center

Peoria, IL

Supported nursing staff in delivering holistic patient care while maintaining an organized environment conducive to healing and rehabilitation. Assisted with various patient activities fostering independence and mobility among residents.

- Assisted in direct patient care, helping individuals with daily living activities integral to their recovery.
- Documented vital signs and patient feedback, ensuring effective communication with the healthcare team.
- Promoted a clean and organized environment following infection control protocols.
- Encouraged and guided patients during rehabilitation exercises, fostering improved mobility.
