EXPERIENCE

Remote Medical Assistant

University Project 📅 January 2025 - Present 📍 Remote

In the role of Remote Medical Assistant, provided vital support for day-to-day operations of a virtual healthcare practice. Leveraged telehealth technologies for chronic condition management, ensuring patients received personalized attention and resources.

- Conducted assessments for patients with chronic conditions, crafting tailored care plans according to individual needs.
- Utilized telehealth technologies for monitoring patient progress, educating them on effective treatment adherence.
- Collaborated with healthcare professionals for coordinated delivery of care, addressing complex patient needs efficiently.
- Identified gaps in care, supporting patients in overcoming barriers that affected their health outcomes significantly.
- Accurately recorded all patient interactions in EHRs while upholding strict compliance with HIPAA standards.
- Engaged in follow-up consultations via phone calls and video sessions, modifying care strategies based on patient feedback.
