Hiring Manager
Creative Tech Solutions
Remote, USA

Dear Hiring Manager,

I am eager to apply for the Research Intern position at Creative Tech Solutions. This opportunity overlaps with my academic focus and zealous pursuit in AI ethics, bringing promises of engaging challenges alongside talented innovators.

In my current role as a Research Intern, I explore ethical dilemmas in AI technologies. I've developed assessment frameworks addressing biases in machine learning. Working alongside a diverse team, I appreciate multiple viewpoints that enhance our research efforts, leading to deeper insights for publication.

One project involved creating models that detect unintentional AI harms. We ventured into data collection, meticulously analyzing results with the aim of enhancing responsible AI practices. Although some hurdles arose, my persistence fueled progress that inspired colleagues.

I appreciate the dynamic environment Creative Tech Solutions fosters. As a passionate advocate for ethical AI, collaborating with your team resonates deeply with my professional goals. Bringing my hands-on experience in Python and machine learning, I am ready to contribute meaningfully.

As part of my educational journey, I completed a capstone project, examining transparency in AI systems. This experience sharpened my commitment to ethical frameworks. Each presentation revealed the importance of clear communication in complex discussions.

Looking forward to the possibility of contributing alongside passionate peers.

Thanks,

Xiao Fischer
