## Roadway Engineer Intern (E.I.)

JULY 04, 2026

Innovative Engineering Solutions  
Hiring Manager  
Jacksonville, FL

Dear Hiring Manager,

I am eager to apply for the position of Roadway Engineer Intern at Innovative Engineering Solutions, a role that blends my academic background and practical experience while igniting my enthusiasm to contribute to transformative transportation projects.

From collaborating on a capstone project to tackling real-world design challenges, my hands-on experiences armed me with skills in Microstation and GEOPAK, enhancing my ability to breathe life into intricate engineering designs that meet stringent specifications.

While interning at a transportation design project remotely, I confronted moments of uncertainty, yet through teamwork and persistence, I disseminated effective construction plans, illustrating a gray area between challenge and innovation.

In various academic pursuits, I contributed to reports that unveiled sustainable strategies for transportation systems, each document reflecting my commitment to thoroughness while navigating rigorous engineering standards alongside diverse teams.

As I move forward into my professional voyage, I hope to join Innovative Engineering Solutions where I can channel my creativity, bring forth keen insights, and surpass expectations in every task undertaken, all while engaging collaboratively within multi-discipline engineering environments.

Thank you,

Sincerely,

*Akira Bowman*
