STRENGTHS

- 🗨 **Executive discovery**
Asked careful questions during complex pursuits, helping senior buyers connect data needs with business priorities.
- 🔍 **Opportunity qualification**
Clarified timing, stakeholders, fit, and commercial path early. That discipline kept teams focused on real opportunities.
- 👥 **Partner development**
Built practical channel relationships and shared context freely. Partners became more confident carrying customer conversations.
- 📋 **Commercial negotiation**
Turned technical value into clear business terms during procurement discussions, keeping agreement paths constructive.
- 🔄 **Post sales support**
Stayed engaged after signing and coordinated handoffs carefully. Customers received continuity rather than a cold transition.

SUMMARY

Enterprise technology sales professional with 14 years of experience growing software, database, and **data platform** revenue across **financial services** and insurance accounts. Builds territory plans, manages strategic accounts, qualifies opportunities, leads sales campaigns, negotiates contracts, develops partners, and supports customers after signing. Guides complex pursuits from executive discovery and technical requirements through commercial agreement, implementation handoff, and account expansion. Connects database modernization and **AI for data** capabilities with governance, resilience, analytics, and operational goals. Works closely with executives, technology leaders, procurement teams, solution specialists, and channel partners. Creates clear plans, manages pipeline discipline, and translates technical value into business outcomes. Brings a practical record of strengthening **partner self sufficiency** and sustaining customer relationships across regulated markets.

EXPERIENCE

Senior Enterprise Sales Executive, Financial Services

Northstar Data Solutions 📅 January 2022 - Present 📍 Charlotte, NC

Leads enterprise data platform pursuits across financial services accounts, connecting executive priorities, technical requirements, partner participation, and commercial outcomes. Owns territory activity from prospecting through contracting, implementation handoff, and post sales growth.

- Directed **data platform** pursuits through executive discovery and technical qualification, earning stakeholder confidence.
- Built **territory** plans for **financial services** accounts, improving focus across named and non named opportunities.
- Positioned database modernization and **AI for data** capabilities around governance and resilience.
- Coordinated procurement, partners, and solution specialists through **contract negotiation** and **signing**.
- Created handoff plans that supported implementation readiness and post sales account expansion.
- Shared sales methods with peers, strengthening consistency across complex enterprise pursuits.

Enterprise Account Director

HarborPoint Cloud Technologies 📅 May 2018 - December 2021 📍 Atlanta, GA

Managed enterprise software accounts across regulated markets, combining account strategy, pipeline governance, partner development, and customer support. Directed multi party pursuits from qualification through agreement while protecting long term account value.

- Expanded enterprise software accounts through structured discovery, qualification, and executive relationship building.
- Ran **sales campaigns** that connected customer priorities with **database** and platform solution value.
- Developed channel relationships that improved **partner self sufficiency** during customer pursuits.
- Negotiated commercial terms with procurement leaders, solution teams, and business sponsors.
- Maintained opportunity plans that clarified risks, dependencies, decisions, and next actions.
- Guided post sales coordination, preserving trust through implementation handoff and customer follow through.

Strategic Account Executive, Regulated Industries

BlueRidge Enterprise Software 📅 July 2014 - April 2018 📍 Raleigh, NC

Owned strategic software relationships across regulated customers, translating business needs into qualified opportunities, account plans, and coordinated sales campaigns. Balanced executive engagement, technical alignment, contract progress, and partner participation across extended buying cycles.

- Contract negotiation
- Partner sales
- Pipeline management
- Opportunity qualification
- Post sales support

LANGUAGES

MY CAREER

- Senior Enterprise Sales Executive, Financial Services at Northstar Data Solutions (4.7 Years)
- Enterprise Account Director at HarborPoint Cloud Technologies (3.6 Years)
- Strategic Account Executive, Regulated Industries at BlueRidge Enterprise Software (3.8 Years)
- Account Executive, Infrastructure Software at Crescent Technology Group (2 Years)

- Opened regulated industry opportunities through account research, executive outreach, and focused discovery.
- Mapped technical requirements into solution discussions that supported database and **data platform** evaluations.
- Qualified buying priorities, stakeholders, timing, and commercial path before advancing pursuits.
- Led **partner sales** coordination, creating shared plans for customer engagement and delivery readiness.
- Prepared negotiation materials that helped align procurement expectations with business outcomes.
- Transferred account knowledge to peers, creating repeatable practices for strategic opportunity management.

Account Executive, Infrastructure Software

Crescent Technology Group 📅 June 2012 - June 2014 📍 Richmond, VA

Developed infrastructure software territory coverage across commercial accounts, building foundational skills in prospecting, account management, **opportunity qualification**, sales campaigns, and customer support. Managed opportunities through discovery, proposal, negotiation, and handoff.

- Built territory coverage through targeted **prospecting** across infrastructure software accounts.
- Qualified customer requirements and buying roles before advancing proposals into active pursuits.
- Presented software value in business terms for technology leaders and procurement stakeholders.
- Supported contract discussions with clear requirements, pricing context, and next steps.
- Coordinated post sales handoffs, giving customers a clear path into implementation support.
- Documented account activity and pipeline decisions, creating dependable follow through across pursuits.

PROJECTS

Financial Services Data Growth Program 📅 2025

Connected account planning, partner outreach, database modernization, and AI for data positioning across regulated customer conversations. Shared goals created stronger executive dialogue and clearer paths from discovery through expansion.

Partner Self Sufficiency Initiative 📅 2023

Built practical partner engagement materials, qualification routines, and handoff guidance for enterprise pursuits. Trusted relationships improved coordination between channel teams, solution specialists, procurement, and customer sponsors.

LEADERSHIP & AWARDS

- Recognized for consistent enterprise account development across financial services and insurance markets.
- Earned peer recognition for clear opportunity planning and dependable partner coordination.
- Selected to share practical sales methods supporting complex technology pursuits.
