### STRENGTHS

- 👁 **Situational awareness**  
Camera and alarm monitoring helped identify unusual behavior early. Teammates relied on clear escalation when several events competed for attention.
- 📋 **Calm prioritization**  
During busy control room periods, calls and alarms were sorted by urgency. Clear decisions kept responders focused on useful information.
- ♥ **Accurate documentation**  
Activity, key, maintenance, and incident logs stayed current through disciplined entries. Reliable records supported smoother shift handoffs.
- 🗣 **Clear communication**  
Radio and telephone traffic received concise summaries. Responders gained practical details without unnecessary delay or confusion.
- 🔧 **Technical troubleshooting**  
Routine console, alarm, radio, and workstation issues were checked promptly. Early reporting helped preserve operational readiness.

### SKILLS

CCTV monitoring   Access control  
Electronic doors   Alarm systems  
Radio communications  
Call summarization  
Incident logging   Cross referencing  
Event prioritization   Data entry  
Emergency coordination  
Equipment troubleshooting  
Activity logs   Key control  
Visitor monitoring

### SUMMARY

Early career security operations professional with three years of experience supporting **controlled access**, **public safety** communications, and secure control room activity. Monitors CCTV, electronic doors, alarms, **staff movement**, visitor access, and concurrent radio and telephone traffic with steady attention. Summarizes calls, cross references information, prioritizes events, enters accurate data, and maintains activity, key, equipment, and incident logs. Recognizes hazards, unusual behavior, and developing disturbances, then shares clear information with responders and facility staff. Troubleshoots routine console, radio, alarm, computer, and workstation issues while documenting maintenance needs. Experience includes rotating day and **night shifts**, weekends, holidays, and fast changes in operational priorities. Brings calm judgment, reliable documentation, and practical security technology skills that support safe detention and public safety operations.

### EXPERIENCE

#### Security Control Operator

Regional Public Safety Communications Center 📅 October 2024 to Present 📍 Meridian, ID

- Supports a public safety control room through continuous monitoring, access management, communications, documentation, and routine equipment support. Handles concurrent events for staff, visitors, responders, and facility operations while protecting accurate information flow.
- Monitored **CCTV**, electronic doors, **alarms**, and controlled access during continuous facility operations.
  - Summarized radio and telephone calls, prioritized **concurrent events**, and routed urgent information accurately.
  - Maintained activity, key, equipment, and incident logs under established records procedures.
  - Recognized **hazards** and unusual behavior, then escalated concerns with clear responder information.
  - Troubleshoot console, radio, alarm, computer, and workstation issues while documenting maintenance needs.
  - Supported **rotating shifts**, weekends, holidays, and changing priorities within **safety sensitive** operations.

#### Security Operations Assistant

Community Safety Operations Center 📅 September 2023 to September 2024 📍 Nampa, ID

- Supported daily security operations through access monitoring, camera observation, communications handling, incident documentation, and equipment checks. Worked with public safety personnel to preserve orderly information flow during routine activity and emerging events.
- Tracked staff and **visitor movement** through CCTV, access controls, and electronic door systems.
  - Managed radio and **telephone traffic**, summarized calls, and directed information to appropriate personnel.
  - Cross referenced activity details during concurrent events to support accurate **prioritization** and **data entry**.
  - Recorded key, maintenance, activity, and incident information for dependable operational continuity.
  - Reported developing hazards and disturbances, giving responders concise information for follow up.
  - Checked consoles, radios, alarms, and **office equipment**, then documented **minor maintenance** needs.

### PROJECTS

Control Room Readiness Review 📅 2025
