

Thomas Oliver

Senior AI QA Automation Engineer

JUNE 18, 2026

TechVision Solutions
Hiring Manager
Atlanta, GA

Dear Hiring Manager,

I am excited to apply for the Senior AI QA Automation Engineer position at TechVision Solutions. This opportunity aligns well with my skills in implementing innovative testing frameworks and optimizing automation strategies for reliability.

At BrightPath Technologies, my role involved designing automation systems using LLMs. Collaborating with product teams, I ensured acceptance criteria were met while enhancing overall test coverage. This experience taught me the importance of precise communication within a team.

During my previous role as a Junior AI Test Engineer, I played a crucial part in development efforts that improved both UI and API testing. Though navigating initial challenges felt daunting, the resulting successes instilled confidence and strengthened my resolve.

I firmly believe that my strong background in AI testing, complemented by a degree in Computer Science, positions me to contribute effectively at TechVision Solutions. I am eager to join a company that values innovation and fosters collaboration among its teams.

Thank you for considering my application.

Sincerely,

Thomas Oliver
