SUMMARY

Dynamic and detail-oriented Senior Business Data Analyst with over 6 years of experience in data analysis within the insurance industry. Proven expertise in SQL and a strong ability to translate complex data into actionable insights. Committed to fostering collaboration between business and IT stakeholders to enhance data-driven decision-making. Demonstrated capability in mentoring junior analysts and leading data analysis initiatives that drive business improvements. Adept at communicating with cross-functional teams to gather requirements and develop effective reporting solutions. Passionate about leveraging data to identify trends and support strategic objectives. Eager to contribute to a forward-thinking organization by applying analytical skills and leadership experience.

EXPERIENCE

Senior Business Data Analyst

DataSmart Solutions 📅 April 2022 - Present 📍 Chicago, IL

Lead collaborative efforts to analyze extensive datasets for actionable insights supporting business strategies in a fast-paced environment.

- Gathered data and analytics requirements from business customers to ensure accuracy in reporting projects.
- Conducted comprehensive data analysis using SQL, addressing key business needs and promoting informed decision-making.
- Mentored junior analysts, cultivating their skills and enhancing team output through best practice implementations.
- Documented data requirements and transformation rules, streamlining processes to improve project efficiency.

Business Data Analyst

AccuAngle Insurance Group 📅 May 2019 - March 2022 📍 Chicago, IL

Performed rigorous data processing to support various analytical projects ensuring quality and compliance with industry standards.

- Collaborated with diverse departments to collect and understand data requirements effectively.
- Utilized SQL as a primary tool for conducting root cause analysis on existing data quality issues.
- Maintained detailed documentation detailing transformation rules, crucial for reproducibility and clarity.
- Enhanced communication across teams, ensuring all stakeholders remained well-informed throughout project cycles.

Data Analyst Intern

Insight Innovations 📅 June 2018 - April 2019 📍 Remote

Assisted in data-driven projects focusing on improving the company's market strategies and reporting frameworks.

- Contributed to ongoing projects by analyzing consumer behavior data and proposing actionable marketing strategies.
- Supported senior analysts by generating insightful reports based on distributed datasets.
- Engaged with different teams, facilitating smooth communication and alignment on project details.
- Participated in workshops to advance overall understanding of data analytics tools and techniques.
