

Tucker Peters

Senior Controls and Automation Engineer

AUGUST 13, 2026

Hiring Manager
ABARTA Beverages
Pittsburgh, PA

Dear Hiring Manager,

I am ecstatic to present myself for the Senior Controls Engineer role at ABARTA Beverages. This opportunity marries my fervor for industrial automation with my extensive experience. My background seamlessly aligns with the core objectives of enhancing the efficiency of production systems.

Despite occasional hesitations, stepping into automation proved a profound adjustment. From increasing throughput by 15% in bottling lines to tackling complex issues in real-time production, my journey has been enlightening. My robust understanding of PLC programming and SCADA systems reveals my commitment to innovation and operational improvement.

Engaging with cross-functional teams has always been a joy. My collaboration resulted in enhanced reporting through MES and ERP integrations. These efforts facilitated compliance and improved traceability. Each project taught me valuable lessons about success, requiring both leadership and humility.

I believe that continuous improvement isn't merely a strategy; it's a mindset. My resolute focus on safety and quality drives me to maintain high standards in every project. As I guide projects from concept to completion, I aim to foster unity and inspire others to reach optimal results. My experience can significantly impact ABARTA Beverages' innovative culture.

Thank you for considering my application.

Sincerely,

Tucker Peters
