STRENGTHS

👥 Collaboration

Fostered team spirit through open communication, facilitating easier teamwork and aligning goals seamlessly across departments.

💡 Problem Solving

Skillfully navigated challenges by leveraging diverse perspectives and encouraging creative solutions among team members.

★ Leadership

Naturally led teams through transitions, driving buy-in and commitment while increasing project engagement rates.

👤 Mentorship

Frequently guided less experienced developers toward gaining confidence and insights into best coding practices.

⚙️ Adaptability

Embraced flexibility in work approaches, responding positively to emerging requirements and shifting priorities.

SUMMARY

Ambitious Full-Stack Engineer with over 6 years in developing performant applications. Passionate about crafting efficient software solutions while optimizing user experience and functionality. Skilled in Python, Django, and AWS, fostering collaboration with cross-functional teams to achieve objectives on time and within scope. Successfully led initiatives that enhanced application performance while ensuring adherence to industry standards. Eager to contribute technical expertise and leadership skills at Tech Innovations Inc., driving innovation and efficiency throughout the organization.

EXPERIENCE

Senior Full-Stack Engineer

Tech Solutions Corp. 📅 January 2021 - Present 📍 Seattle, WA

Lead full-stack development for high-traffic web applications using Python and Django. Oversee project design from concept through implementation and testing. Collaborate effectively with product teams, aligning technical projects with strategic business goals.

- Spearheaded efforts in enhancing application performance and scalability through advanced cloud implementations.
- Formulated streamlined workflows that improved productivity and maintained a high standard of code quality.
- Cultivated strong partnerships with cross-functional teams, maximizing communication and understanding across all levels.
- Mentored junior engineers, providing guidance in coding standards, best practices, and career development.

Mid-Level Software Engineer

Data Systems Inc. 📅 June 2018 - December 2020 📍 Portland, OR

Developed robust microservices architecture supporting increasing data processing demands. Improved existing functionalities by implementing new features and maintaining flexible RESTful APIs tailored for server interactions.

- Established functional APIs and integrated third-party services, enhancing overall system capabilities.
- Conducted thorough code reviews and provided extensive mentorship and support to junior colleagues.
- Improved team efficiency through Agile methodologies and effective sprint planning, leading to timely feature delivery.
- Collaborated with QA teams to implement stringent testing processes, resulting in reduced bugs and better client satisfaction.

Software Engineer

Innovative Tech LLC 📅 August 2016 - May 2018 📍 San Francisco, CA

Participated in all aspects of development for user-centric web applications, utilizing JavaScript frameworks alongside Python technologies. Focused on delivering quality software in fast-paced environments with dynamic requirements.

- Designed engaging user interfaces while directly collaborating with UI/UX designers to enhance user flow.
- Actively participated in Agile sprints, contributing substantially to project retrospectives and future planning.
- Facilitated collaboration among developers and QA, fostering an environment that encouraged innovative problem-solving.
- Utilized automated testing methods to ensure quality assurance standards were consistently met.

MY CAREER

- Senior Full-Stack Engineer at Tech Solutions Corp. (5.4 Years)
- Mid-Level Software Engineer at Data Systems Inc. (2.5 Years)
- Software Engineer at Innovative Tech LLC (1.8 Years)

PROJECTS

Data Pipeline Optimization 📅 April 2025

Optimized data processing pipelines to improve transaction speed and reporting accuracy. Worked with cross-functional teams to ensure smooth integration and deploy enhancements successfully across multiple systems.

Microservice Architecture Implementation 📅 October 2024

Led the shift to microservices for a backend system, improving maintainability and scalability. The new architecture facilitated the addition of features without impacting current functionality or compromising performance.

LEADERSHIP & AWARDS

- Employee of the Year, Tech Solutions Corp. - 2022: Recognized for outstanding contributions to project completion and team development.
- Best Innovation Award, Data Systems Inc. - 2019: Honored for implementing impactful strategies that markedly improved operational efficiencies.

EDUCATION

Bachelor's Degree in Computer Science

University of Washington 🎓 GPA: 3.8 📅 2016 📍 Seattle, WA

Coursework: Software Development, Data Structures, Algorithms, Web Technologies

CERTIFICATIONS

- AWS Certified Solutions Architect 📅 2022
- Certified ScrumMaster (CSM) 📅 2021

TECHNICAL SKILLS

- **Cloud Services:** AWS, Microsoft Azure, Google Cloud
- **Programming Languages:** Python, JavaScript, Java, C#
- **Frameworks:** Django, Flask, React, Angular
- **Version Control:** GIT, Subversion, Mercurial
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Containerization Tools:** Docker, Kubernetes, OpenShift
- **Project Management:** JIRA, Trello, Asana
- **Testing Frameworks:** JUnit, PyTest, Selenium
- **Development Approaches:** Agile, Scrum, DevOps
- **Communication Tools:** Slack, Zoom, Microsoft Teams

PROFESSIONAL AFFILIATIONS

- Member, Seattle Developers Association: Participating regularly in local workshops and networking events.
- Contributor, Open Source Organization: Engaging actively in collaborative projects that focus on powerful software tools.
