## SUMMARY

Data analyst with over 4 years of experience specializing in data integrity and analytics within healthcare. Proficient in SQL, data validation, and reporting while effectively communicating findings to stakeholders. A proven track record includes enhancing data management processes, leading strategic initiatives through detailed data analysis, and collaboration across departments. Recognized for a commitment to maintaining data accuracy and compliance in dynamic settings. Keen attention to detail fosters confidence in presenting complex information clearly and succinctly, influencing organizational decision-making positively.

## EXPERIENCE

### Senior Data Analyst

January 2021 - Present

Bright Health Insights

Chicago, IL

Oversaw data analysis projects, ensuring accuracy and compliance in reporting crucial for strategic planning. Collaborated with cross-functional teams to identify needs, enhancing workflow and collection processes. Conducted audits, resolving discrepancies that uphold high standards. Developed statistical reports, enabling leadership to make informed decisions essential for business success.

- Ensured data accuracy, completeness, integrity, and compliance across platforms.
- Managed data collection, validation, and analysis for strategic plans.
- Prepared actionable reports for upper management and stakeholders.
- Collaborated closely with IT to test new tools improving performance.

### Data Analyst

June 2018 - December 2020

Health Analytics Group

Chicago, IL

Supported comprehensive data collection and validation efforts adhering to research methodology standards essential for operational excellence. Analyzed complex data sets, providing insightful findings that were shared with internal stakeholders. Improved transparency through developed documentation surrounding data management procedures.

- Analyzed historical data trends to aid in setting future goals.
- Facilitated accreditation data initiatives, aiding successful outcomes.
- Maintained detailed logs relating to data management for compliance checks.
- Engaged in team efforts that streamlined data reporting processes.

## LEADERSHIP & AWARDS

- Recognized by peers for support on data-driven decision-making innovations.
