STRENGTHS

- 🗨️ **Customer guidance**
Turned difficult integration questions into clear next steps during one on one customer sessions.
- 🔍 **Quiet problem solving**
Stayed with configuration issues until root causes became clear, earning trust from project teams.
- 👥 **Practical workshops**
Used live demonstrations and plain language so finance users could act with confidence afterward.
- 🔒 **Secure integration design**
Applied careful authentication reviews to protect data flow without slowing useful delivery.
- ✅ **Steady delivery**
Kept concurrent deployments organized through thoughtful notes, validation checks, and timely follow through.

SUMMARY

Senior financial integrations consultant with nine years of IT implementation experience across enterprise HR and finance platforms, secure web services, configuration reviews, and customer focused **software consulting**. Designs and troubleshoots REST and SOAP integrations using JSON, XML, XSLT, OAuth, JWT, WS Security, SAML, X.509, Java, JavaScript, Python, and .Net. Leads **requirements reviews**, tenant analysis, feature deployments, **integration optimization**, demonstrations, workshops, webinars, and **adoption guidance**. Translates technical decisions into practical business outcomes through clear presentations, careful documentation, and focused customer guidance. Supports concurrent consulting engagements with sound prioritization and calm problem solving. Brings experience with PeopleSoft, SAP, Oracle, and JD Edwards environments, plus platform certification in enterprise cloud integrations and integration studio. Can help customers adopt secure, supportable financial and HR integrations with confidence.

EXPERIENCE

Senior Financial Integrations Consultant

CloudHarbor Advisory 📅 January 2022 - Present 📍 Chicago, IL

Leads financial and HR **integration consulting** across cloud platforms, secure web services, configuration reviews, feature deployments, and adoption programs. Supports senior stakeholders through requirements analysis, tenant reviews, demonstrations, workshops, troubleshooting, and integration optimization.

- Led REST integration redesigns for **financial** tenants, improving secure data exchange and production reliability.
- Resolved OAuth and JWT **configuration issues** through focused tenant reviews, restoring customer workflow access.
- Delivered **workshops** on **JSON**, **XML**, and **XSLT** mappings, helping teams adopt supportable integration patterns.
- Guided feature deployments with requirements reviews, validation plans, and clear stakeholder documentation.
- Demonstrated integration options for customer teams, turning technical questions into practical implementation decisions.
- Reviewed tenant adoption patterns and identified **configuration** improvements for stronger platform utilization.

Integrations Consultant

Northwind Enterprise Solutions 📅 June 2019 - December 2021 📍 Columbus, OH

Delivered **integration consulting** for enterprise HR and finance applications, combining configuration analysis, secure authentication, requirements review, workshops, demonstrations, and production deployments. Managed concurrent customer engagements from discovery through adoption support.

- Implemented **REST** and **SOAP** services for HR data exchange, supporting dependable customer payroll workflows.
- Troubleshoot SAML and **X.509** authentication issues during deployment, reducing delays for enterprise users.
- Mapped JSON and XML payloads with **XSLT**, giving stakeholders clearer control over interface behavior.
- Conducted customer workshops and **demonstrations**, helping business teams connect configuration choices with outcomes.
- Reviewed integration requirements with finance stakeholders, shaping practical designs for secure data movement.
- Coordinated feature deployments across customer environments, maintaining clear validation records and handoff notes.

MY CAREER

- Senior Financial Integrations Consultant at CloudHarbor Advisory (4.7 Years)
- Integrations Consultant at Northwind Enterprise Solutions (2.5 Years)
- Implementation Analyst, Finance Systems at Prairie Systems Group (1.9 Years)

Implementation Analyst, Finance Systems

Prairie Systems Group 📅 June 2017 - May 2019 📍 Indianapolis, IN

Supported finance system implementations through requirements analysis, interface planning, testing, configuration, data validation, and user enablement. Worked with project teams and business stakeholders on reliable delivery across enterprise application environments.

- Analyzed finance requirements with business users, translating process needs into practical system configurations.
- Built interface test cases for **financial** data exchange, clarifying defects before production deployment.
- Supported **Oracle** and **PeopleSoft** implementation work through configuration reviews and structured validation sessions.
- Prepared user enablement materials for finance teams, making new workflows easier to adopt.
- Investigated data mapping issues across **XML** interfaces, helping project teams close testing gaps.
- Documented implementation decisions and open questions, giving stakeholders a dependable project reference.

PROJECTS

Secure Payroll Integration Optimization 📅 2024

Optimized a secure payroll integration pattern using REST, OAuth, JSON, and XML. Reviewed mappings, authentication, deployment steps, and adoption guidance for enterprise finance stakeholders.

Financial Tenant Adoption Review 📅 2023

Created a structured tenant review approach for financial applications. Combined configuration analysis, requirements questions, demonstrations, and workshop guidance to identify practical adoption opportunities.

LEADERSHIP & AWARDS

- Enterprise Cloud Integrations Certification achievement, 2023
- Cloud Integration Studio Certification achievement, 2024
- Customer consulting recognition for clear workshops and dependable integration guidance

EDUCATION

Bachelor's Degree in Information Systems

Indiana University 🎓 GPA: 4.0 📅 2017 📍 Bloomington, IN

Coursework: *Systems analysis, database management, enterprise applications, software development*

CERTIFICATIONS

- Enterprise Cloud Integrations Certification 📅 2023
- Cloud Integration Studio Certification 📅 2024
