SUMMARY

Compassionate Senior Occupational Therapist brings over three years of extensive experience providing valuable care to patients across all age groups, including infants, adolescents, adults, and geriatrics. Expertise in crafting individualized treatment programs tailored for physical disabilities settings demonstrates commitment to patient improvement and collaboration within interdisciplinary teams. Participation in ongoing education ensures up-to-date practices relevant to their needs. Strong dedication towards team efforts fosters an environment of mutual growth and success, enhancing overall health outcomes and enriching lives.

EXPERIENCE

Occupational Therapy Intern

University Project 📅 June 2025 - June 2026 📍 San Jose, CA

Contributed significantly as an Occupational Therapy Intern by collaborating with healthcare professionals to design and implement treatment plans tailored to individual patient needs, focusing on improving health outcomes. Active participation in comprehensive assessments allowed the identification of effective strategies addressing both physical and cognitive challenges facing clients.

- Engaged with a multidisciplinary team to formulate personalized therapy interventions that address each patient's specific challenges.
- Conducted thorough evaluations, ensuring accurate goal setting based on patient's unique health profiles.
- Assisted in creating educational resources demystifying occupational therapy processes for families and caregivers.
- Actively participated in clinical team meetings and contributed informed recommendations on best treatment practices.
- Maintained compliance by meticulously documenting patient progress while adhering to industry standards.
- Ensured continuing knowledge growth by attending workshops centered around advanced topics in occupational therapy.

Research Assistant

Academic Research 📅 September 2024 - May 2025 📍 San Jose, CA

Served as a Research Assistant focusing on how occupational therapy practices influence rehabilitation outcomes among pediatric patients. This role provided valuable insights into practical applications, solidifying knowledge and emphasizing key methodologies encountered during training.

- Supported research initiatives highlighting the significance of occupational therapy in enhancing pediatrics rehabilitation.
- Handled data collection, documenting findings and facilitating seamless communication between faculty and students.
- Crafted case studies advocating for successful therapeutic techniques, shaping the future courses offered by the university.
- Collaborated closely on literature reviews, summarizing pivotal articles related to improved therapy practices.
- Presented impactful research findings at academic conferences, helping elevate awareness surrounding innovative treatments in occupational therapy.
- Explored participant engagement and analyzed feedback post-therapy to contribute to evidence-based advancements.

Student Occupational Therapist

Capstone Project 📅 January 2024 - May 2024 📍 San Jose, CA

Executed a capstone project aimed at refining and enhancing therapy methodologies for geriatric populations. Through collaborative efforts with local healthcare entities, the implementation of cutting-edge treatment **techniques** illustrated the real-world applicability of academic learnings.
