SUMMARY

Dedicated Service Technician with more than three years of experience maintaining and repairing commercial generator systems. Skilled in troubleshooting generator issues, performing preventative maintenance, and providing exceptional customer support in electrical environments. Familiar with Automatic Transfer Systems and proficient in using electronic test equipment. Focused on upholding safety standards while ensuring work meets quality expectations. Proven record of delivering timely results aligned with customer needs. Eager to contribute skills and passion for service excellence at PowerTech Solutions.

EXPERIENCE

Generator Field Technician

June 2023 - Present

TechGen Services

Chicago, IL

Responsible for high-quality maintenance and repair of generator systems, ensuring compliance and reliability. Managed sensitive customer interactions and technical support while independently facilitating essential repairs and diagnostics.

- Conduct regular maintenance on generator units, aligning work with the highest industry standards.
- Troubleshoot Automatic Transfer Systems effectively, contributing to improved reliability for clients.
- Assist customers by providing expert technical support regarding operational and maintenance issues.
- Perform engine diagnostics and fuel priming, promptly restoring functionality where needed.
- Keep meticulous records of service documentation, enhancing transparency and fostering trust with customers.
- Collaborate with onsite subcontractors, efficiently coordinating efforts to address repairs.

Electrical Technician

March 2021 - May 2023

PowerGrid Solutions

Naperville, IL

Managed comprehensive electrical maintenance operations, responsible for servicing multiple generator units, optimizing efficiency while adhering to strict safety guidelines.

- Oversaw preventative maintenance schedules, significantly reducing downtime across over 50 generator units.
- Contributed to installation of new systems while consistently promoting adherence to safety protocols.
- Conducted impactful training sessions for junior technicians, emphasizing system diagnostics and best practices.
- Streamlined processes related to service documentation, positively affecting overall operational efficiency.
- Engaged clients regularly, strengthening relationships that led to repeat business opportunities.
- Utilized ERP systems for enhanced service management and resource allocation.

Field Service Technician

January 2020 - February 2021

EnergyWorks

Aurora, IL

Delivered direct field services including emergency repairs for generator failures, focusing on swift response times and minimizing disruptions to client operations.

- Provided prompt on-call emergency support, addressing generator malfunctions rapidly to minimize client impact.
- Executed thorough inspections of systems, preemptively identifying issues before escalating into major repairs.
- Enhanced familiarity with Woodward and Beckwith controls through dedicated field training and hands-on practice.
- Nurtured positive customer relationships by engaging openly and understanding their needs fully.
- Ensured all company vehicles and tools were maintained for immediate readiness, reflecting a commitment to professionalism.
- Participated in safety training sessions, adhering to stringent industry safety regulations throughout.

LEADERSHIP & AWARDS

- Leadership award for mentorship of junior staff at PowerGrid Solutions, fostering an environment of learning and collaboration.
