Hiring Manager
Chamberlain Financial Services
Chicago, IL

Dear Hiring Manager,

I am thrilled to apply for the Skill Bridge Internship at Chamberlain Financial Services. This role resonates with me deeply as it merges my military decision-making skills with a passion for finance, creating an exceptional platform for my growth.

In my current position as a Financial Analyst, I conduct detailed financial analysis, equipping businesses with insights crucial for success. Modeling financial statements has not only sharpened my Excel expertise but also enhanced my confidence in presenting data effectively. I genuinely strive for excellence, yet I often find myself second-guessing my capabilities, pushing me to keep evolving.

My time at Greenwood Financial Solutions has fueled my growth. Engaging with cross-functional teams has taught me the power of collaboration. I have actively developed financial models that drive informed strategic decisions, and I am excited about the prospect of doing this in your fellowship, helping to format finance models that align with industry standards.

Transitioning from active-duty service has been a journey. My record reflects honorable service and strong evaluations, which anchor my commitment to excellence. I eagerly anticipate the opportunity to learn from your leadership training program, expanding my network within the finance industry.

Economics has been a driver behind each choice I make. Connecting financial theory with practical application stimulates my passion and ambition. I am fully ready to tackle the challenges of the financial realm, and I look forward to the chance to shine in this internship.

Looking forward to hearing from you.

Thanks,

Diego Green
