

Steven Alvarez

Software Automation Intern

JUNE 10, 2026

Hiring Manager
Innovative Tech Solutions
Chicago, IL

Dear Hiring Manager,

I am thrilled to apply for Software Automation Intern at Innovative Tech Solutions, blending my automation background with your visionary pursuits in diagnostics and life sciences. This unique opportunity to engage with cross-functional teams resonates deeply with my aspiration to foster innovation.

During my time at Tech Innovations Inc., I developed automation solutions that improved efficiency by a notable 30%. Collaborating with Agile teams sharpened my analytical skills. I tackled challenges that required both technical expertise and a spirit of creativity, allowing me to contribute effectively to our objectives.

At Future Tech Labs, my role involved testing software applications to boost user experience while enhancing system reliability. Each project taught me indispensable lessons. Facing obstacles sometimes left me feeling doubted, yet perseverance led to breakthrough solutions that benefited my team.

Innovative Tech Solutions' commitment to automating health care aligns perfectly with my values. The chance to support your mission through testing strategies and process automation excites me immensely. I am eager to join a team dedicated to resolving pressing health care challenges through advanced technology.

I appreciate your consideration.

Sincerely,

Steven Alvarez
