Hiring Manager
Innovative Tech Solutions
Austin, TX

Dear Hiring Manager,

I am excited to express my interest in the Software Development Intern role at Innovative Tech Solutions, as I believe my background in software design aligns seamlessly with your company's mission to create impactful software solutions that serve users effectively and innovatively.

In my tenure at Tech Innovations Inc., I collaborated with diverse teams, contributing to the design of applications that not only perform efficiently but enhance user experience significantly. My focus was on optimizing existing code, where I increased application performance by 20%, ensuring timely delivery of projects.

In the previous internship at NextGen Systems, I supported the development of web applications, utilizing JavaScript and Python. Engaging with Agile practices enhanced my capacity to collaborate better and streamline workflows across teams, allowing for faster adjustments and improvements in our projects.

Currently, I am pursuing a Bachelor's degree in Computer Science at the University of Texas, where I gained invaluable experience developing a web-based application for a class project. This required not just technical skills, but effective collaboration and adaptability—key ingredients I aim to bring to Innovative Tech Solutions.

Your focus on innovation inspires me. I am eager to grow alongside your talented team, contributing my skills and passion to further enhance your projects and goals.

I look forward to discussing my potential contributions further.

Thanks,

Lincoln Baker
