SUMMARY

Passionate Software Engineer with over 4 years of experience crafting top-notch solutions in TypeScript, Node.js, and React. Expertise spans full-stack development—balancing frontend flair with backend intellect. Proficient in leveraging LLMs and advanced methodologies to create intelligent applications that enhance user experiences. A proactive attitude shines through collaborations that drive product evolution. Dedicated to producing maintainable code that supports scalability needs while evolving features that feel seamless. Thrives in a dynamic team-oriented environment, keen on mentoring and sharing knowledge for collectively improved outcomes.

STRENGTHS

- Technical Acumen**
Expertly adapts to various programming languages and frameworks, enabling quick learning of new tools.
- Team Collaboration**
Fosters positive working relationships that inspire colleagues to share diverse perspectives, driving success.
- Problem Solving**
Crafts effective solutions under pressure—inspired others to explore creativity in tech challenges.
- User-Focused Design**
Pioneers development priorities centering on intuitive design principles, resulting in enhanced consumer satisfaction.
- Continuous Learning**
Eagerly adopts new methodologies and industry trends, consistently growing personal capabilities and skills.

SKILLS

- TypeScript
- Node.js
- React
- PostgreSQL
- MLOps
- AI Development
- Agile Methodologies
- Full Stack Development
- Code Review Practices
- Project Management
- Data Analysis
- API Design

EXPERIENCE

Software Engineer

Tech Solutions LLC 📅 July 2022 - Present 📍 Dallas, TX

Contribute extensively to developing impactful AI applications. Spearhead projects across the full stack, effectively linking infrastructure and front-end user interfaces. Drive product improvements by implementing smart features that resonate with users.

- Collaborate with cross-functional teams to develop and integrate AI-driven applications that improve user interaction.
- Design and implement feature sets using TypeScript and Node.js, enhancing application performance.
- Mentor junior engineers on best practices and modern software development methodologies.
- Implement continuous integration processes to streamline workflows and ensure code quality.

Junior Software Engineer

Innovative Software Group 📅 June 2021 - June 2022 📍 Houston, TX

Assisted in crafting scalable user-centric applications, continually focusing on integrating innovative features. Fostered team collaboration through daily stand-ups and planned sprint activities to align on project deliverables.

- Assisted in developing scalable applications using React and PostgreSQL, focusing on user-centric design.
- Participated in daily stand-ups and sprint planning to align project goals with technical execution.
- Contributed to code reviews and maintained documentation to ensure clarity and efficiency in workflows.
- Developed prototypes that rapidly validated new ideas, ensuring aligned expectations before extensive coding.

LEADERSHIP & AWARDS

- Tech Innovator Award for Outstanding Contributions to Software Development
- Excellence in Team Leadership designation from Tech Solutions LLC

EDUCATION

Bachelor's Degree in Computer Science

University of Texas at Austin 🎓 GPA: 3.5 📅 2021 📍 Austin, TX

Coursework: Data Structures, Algorithms, Software Engineering, Database Systems

CERTIFICATIONS

- Certified Kubernetes Administrator (CKA) 📅 2023
- AWS Certified Solutions Architect 📅 2023

Integration Testing Version Control

Deployment Processes

Frontend Optimization

LANGUAGES

English Native

Spanish Proficient

MY CAREER

● Software Engineer at Tech Solutions LLC (3.9 Years)

● Junior Software Engineer at Innovative Software Group (1 Years)

TECHNICAL SKILLS

- **Web Development Tools:** HTML, CSS, JavaScript
- **Database Technologies:** MongoDB, MySQL, Oracle
- **Cloud Technologies:** AWS, Azure, Google Cloud
- **Frameworks and Libraries:** Express.js, GraphQL, D3.js
- **Machine Learning Tools:** TensorFlow, PyTorch, Scikit-learn
- **Containerization Tools:** Docker, K8s, Helm
- **Automation Tools:** Jenkins, GitHub Actions, Travis CI
- **Testing Frameworks:** Jest, Mocha, Selenium
- **Version Control Systems:** Git, SVN, Mercurial
- **Collaboration Tools:** Slack, Trello, JIRA

PROFESSIONAL AFFILIATIONS

- Member of the Association for Computing Machinery (ACM)
- Active participant in local developer meetups focused on emerging technology trends
