Software Engineering Intern – DevOps

JULY 07, 2026

Hiring Manager
TechWorks Solutions
Seattle, WA

Dear Hiring Manager,

I am eager to submit my application for the Software Engineering Intern position at TechWorks Solutions, as this opportunity aligns seamlessly with my aspirations and background. My studies in Computer Science have equipped me with a solid foundation in various programming languages and software practices.

In previous roles, I developed and enhanced CI/CD pipelines that decreased software delivery time significantly, illustrating my commitment to technical growth. Working with peers, I crafted automation scripts to streamline testing and improve productivity, while also implementing Docker for reliable application deployment.

Additionally, during my Capstone Project, I designed a cloud-native application architecture that attracted over 1,000 users. This endeavor led to insights on user behavior and solidified the importance of responsive design.

While collaborating with different teams, I realized the challenge of balancing innovative solutions with practical requirements. Yet, overcoming those obstacles led to high-quality deliverables and valuable experiences for all involved.

I believe my blend of academic training and hands-on projects will significantly contribute to TechWorks Solutions' objectives. I look forward to the possibility of working together and making a positive impact.

Thank you for your consideration.

Sincerely,

Cash Ferguson
