STRENGTHS

- 💡 **Analytical Thinking**
Utilizes strong analytical skills to dissect complex software issues. Team regularly relies on my input for tough problems encountered during testing.
- 👥 **Teamwork**
Effectively collaborates with diverse teams, elevating group efforts to deliver quality outcomes. It's rewarding to share successes during project meetings.
- 🗣️ **Communication**
Communicates clearly across departments. Peers often seek advice based on clarity in reporting bugs, leading to quicker resolutions.
- 👁️ **Attention to Detail**
Demonstrates keen attention, catching nuanced bugs that others may miss. This precision enhances our overall software delivery.
- ⚙️ **Problem-Solving**
Embraces challenges as opportunities to innovate. Developed a workaround for a frequently occurring bug that improved workflow.

SUMMARY

Energetic software quality assurance professional with a foundational understanding of testing methodologies and software development lifecycle. Eager to contribute to a team focused on delivering high-quality products through accurate testing and analysis. Skilled in executing test cases, identifying defects, and collaborating effectively with developers to enhance software functionality. Passionate about continuous improvement and upholding best practices within QA processes. Ready to embrace hands-on challenges and assist in advancing software quality efforts.

EDUCATION

Bachelor's Degree in Computer Science

University of Illinois 🎓 GPA: 3.7 📅 2024 📍 Champaign, IL

Coursework: Data Structures, Software Engineering, Database Management, Web Development

TECHNICAL SKILLS

- **Testing Frameworks:** Selenium, JUnit, TestNG
- **Bug Tracking Tools:** JIRA, Bugzilla, Mantis
- **Automation Scripts:** Python, Java, C#
- **Version Control:** Git, SVN, Mercurial
- **Operating Systems:** Windows, Linux, macOS
- **Collaboration Tools:** Slack, Microsoft Teams, Trello
- **Project Management:** Agile, Scrum, Waterfall
- **Database Testing:** SQL, MongoDB, Oracle
- **Performance Testing:** LoadRunner, Apache JMeter, TestComplete
- **API Testing:** Postman, SoapUI, Rest Assured

EXPERIENCE

Quality Assurance Intern

Tech Solutions Inc. 📅 June 2025 - Present 📍 Chicago, IL

In this role, focus remains on software quality through detailed testing and collaboration. Executing test cases ensures adherence to quality standards while troubleshooting arises with the development team. Contributions include documenting defect reports using tracking tools, enhancing communication for future resolutions.

- Execute a variety of test cases to verify software quality.
- Collaborate with developers on identifying and fixing software issues.
- Employ bug tracking tools for clear documentation of software defects.
- Review results and plan next steps for ongoing test cycles.

Software Tester

Creative Tech Co. 📅 August 2024 - May 2025 📍 Peoria, IL

Contributed to ensuring functional software by performing thorough testing and assisting with process enhancements. Conducted regression tests regularly and maintained careful documentation to track results. Actively participated in strategy sessions fostering better testing practices among team members.

- Conduct regression testing to confirm software integrity post-updates.
- Support the team in forming effective testing plans and strategies.
- Systematically document findings, sharing insights with colleagues.
- Engage actively in discussions on QA techniques and best practices.
