SUMMARY

Dedicated Clinical Dietitian who excels in delivering comprehensive nutritional care within acute healthcare settings. With over two years of hands-on experience, performs detailed nutritional assessments and crafts tailored care plans that promote recovery and improve patient health outcomes. Applies evidence-based practices to enhance patient care quality and collaborates seamlessly with multidisciplinary teams to achieve service excellence. Enthusiastic about mentoring dietetic interns, fostering professional development, and committed to ensuring the best for patients through effective nutrition education. Excited for the opportunity to contribute expertise and a patient-centered approach at Morrison Healthcare.

EXPERIENCE

Clinical Dietitian Intern

University Project 📅 January 2025 - December 2025 📍 Charleston, SC

Internship focused on providing medical nutrition therapy in an ICU setting, enhancing patient outcomes through individualized care plans and team collaboration.

- Performed nutritional assessments for patients with complex conditions, directly contributing to their recovery.
- Collaborated effectively with nursing staff for tube placements, ensuring appropriate nutrient administration.
- Participated in QAPI initiatives that led to significant improvements in clinical nutrition protocols.
- Provided nutrition education sessions that empowered patients and families in making informed dietary choices.
- Mentored dietetic interns, supporting their growth while cultivating a culture of learning.
- Engaged actively in interdisciplinary meetings to share insights that improved patient care.

Nutrition Research Assistant

Academic Research 📅 August 2024 - December 2024 📍 Charleston, SC

Supported a research team in studying the effects of nutrition interventions on surgical recovery, utilizing analytical skills to drive conclusions.

- Assisted in quantitative analysis of data pertaining to nutrition therapy impact on recovery timelines.
- Developed outreach materials aimed at raising community awareness regarding nutritional health.
- Conducted workshops to educate fellow colleagues and students on latest findings in nutrition research.
- Gathered and documented patient feedback about nutrition services, facilitating improvements.
- Contributed to the generation of academic papers for publication, enhancing credibility and visibility in the field.
- Worked closely with faculty members to implement new strategies based on research outcomes.

LEADERSHIP & AWARDS

- Dean's List, University of Charleston, 2024-2026
- Recipient of the Health Sciences Scholarship, 2025

EDUCATION

Bachelor's Degree in Dietetics

University of Charleston 🎓 GPA: 3.8 📅 2026 📍 Charleston, SC

Coursework: Medical Nutrition Therapy, Nutritional Assessment, Food Science, Clinical Dietetics

STRENGTHS

Empathetic Patient Care

A natural ability to establish rapport with patients, resulting in higher engagement during nutrition counseling sessions.

Collaboration Skills

Successfully coordinated with multiple healthcare professionals, optimizing patient treatment through comprehensive teamwork.

Adaptability

Quickly adjusted to dynamic clinical environments, ensuring delivery of consistent care despite changing circumstances.

Instructional Ability

Regularly led educational workshops on nutrition, fostering a supportive learning atmosphere for interns and peers.

Analytical Skills

Utilized strong analytical background to assess patient needs accurately, guiding precise recommendations.
