SUMMARY

Motivated nursing professional with comprehensive experience in patient-centered care and a solid foundation in neonatal settings. Demonstrated ability to assess, plan, implement, and evaluate care for critically ill children in collaboration with multidisciplinary teams. Committed to upholding nursing standards while adapting to patient needs through tailored care strategies. Proven record of fostering relationships with staff, patients, and families to enhance healthcare delivery and outcomes. Eager to contribute skills and compassion in a challenging Pediatric Intensive Care Unit role at Bright Future Health.

EXPERIENCE

Nursing Intern

January 2026 – June 2026

University Research Lab

Chicago, IL

Supported patient care for pediatric patients, providing assistance in assessments and interventions under licensed nurse supervision. Played a key role in implementing quality improvement initiatives that directly contributed to enhanced patient outcomes in the ICU setting. Developed skills in critical thinking, clinical documentation, and family education while adhering to nursing standards.

- Assisted with managing critical pediatric patients, focusing on individualized care plans.
- Collaborated within a diverse medical team to drive evidence-based practices.
- Engaged directly with families to educate them about ongoing treatments.
- Documented patient information accurately following healthcare regulations.
- Participated actively in meetings prioritizing quality improvements.
- Monitored vital signs and recognized changes in patients' conditions.

Clinical Student Nurse

September 2025 – December 2025

Student Innovation Lab

Chicago, IL

Gained hands-on experience delivering direct care in a busy pediatric unit under guidance from seasoned nurses. Completed training involving medication management and vital sign assessments, strengthening the capacity for patient monitoring. Actively involved in practical discussions around patient care strategies within interdisciplinary teams.

- Administered medications and managed IV systems effectively for pediatric patients.

- Conducted daily patient assessments, gathering vital statistics and health updates.
- Openly communicated progress reports during collaborative case discussions.
- Implemented research findings into polished presentations for nursing staff.
- Aided new students with orientation processes related to clinical care responsibilities.
- Utilized time-management skills efficiently in a fast-paced environment.
