SUMMARY

Dedicated professional with over four years of experience as a Sterile Compounding Pharmacy Technician. Equipped with a strong foundation in preparing sterile medications, ensuring patient safety while adhering strictly to healthcare regulations. Expertise in following safety protocols, detailed record-keeping, and effective communication with diverse healthcare professionals. Exceptional ability to utilize specialized training in sterile compounding techniques, enhancing the quality of pharmaceutical care delivered to patients. Proven capacity for maintaining inventory accuracy and fostering a collaborative work environment that sharpens operational efficiency and addresses patient needs.

EXPERIENCE

Sterile Compounding Pharmacy Technician

Rx Solutions 📅 June 2022 - Present 📍 Baltimore, MD

Support pharmacy operations by preparing sterile medications according to strict protocols and procedures. Engage effectively with pharmacists and healthcare staff while managing core responsibilities such as documenting medication preparation and maintaining inventory integrity.

- Prepare sterile medications with a focus on accuracy and sterility, enhancing patient safety.
- Utilize specialized knowledge in sterile compounding practices to ensure compliance during audits.
- Implement efficient processes for ordering supplies, resulting in reduced waste and cost efficiencies.
- Maintain high cleanliness standards in workspace to mitigate contamination risks significantly.
- Actively participate in team meetings, fostering collaboration with pharmacists and other healthcare professionals.
- Safeguard patient confidentiality while contributing towards improving overall pharmacy service delivery.

Pharmacy Technician

CarePlus Pharmacy 📅 January 2020 - May 2022 📍 Baltimore, MD

Served as a vital team member in a high-volume pharmacy setting, focusing on assisting with medication preparation and addressing customer inquiries with care and precision.

- Collaborated closely with healthcare providers to ensure proper dispensing of both sterile and non-sterile medications.
- Maintained rigorous compliance with state regulations, supporting safe medication distribution.
- Conducted inventory checks regularly, reducing supply shortages through proactive management.
- Engaged in ongoing training opportunities to expand expertise in compounding methods.
- Documented preparations thoroughly, aiding in quality assurance efforts.
- Communicated effectively, addressing inquiries from patients to improve service quality.
