- Monitoring Standards

SUMMARY

Dedicated Surgical Technologist with strong experience preparing and maintaining sterile environments for various surgical procedures. Successfully assisted in diverse surgeries, showcasing adaptability across general surgery, gynecology, urology, podiatry, and plastics. Collaborated effectively with multidisciplinary teams, ensuring efficiency and high patient care standards. Skills are complemented by ongoing education, including pursuit of CST certification, aligning with continuous professional development goals. Together with a focus on adherence to safety protocols, fosters a commitment to community health improvement through reliable service delivery.

EXPERIENCE

Surgical Technician

HealthTech Solutions  January 2026 - Present  Des Moines, IA

As a Surgical Technician, supported the preparation and execution of surgical operations in high-pressure environments. Ensured that all instruments were properly sterilized and available for immediate use.

- Prepared operating rooms with necessary surgical tools and equipment.
- Maintained sterile fields during complex surgeries, adhering strictly to safety measures.
- Assisted surgeons in both routine and specialized procedures across multiple specialties.
- Collaborated actively with nursing staff to streamline surgical workflows, enhancing patient experience.
- Engaged in ongoing education regarding advances in surgical technologies and practices.
- Contributed insights towards quality assurance initiatives aimed at surgical outcome improvements.

Surgical Assistant

Wellness Hospital  June 2025 - December 2025  Cedar Rapids, IA

Worked as a Surgical Assistant, playing a key role in facilitating numerous surgeries while upholding rigorous health standards. Actively contributed to team efforts aimed at consistent operational excellence.

- Prepared surgical instruments and maintained an organized work environment safely.
- Ensured complete compliance with health regulations, fostering optimal safety and cleanliness.
- Pursued continuous learning to refine skills associated with modern surgical procedures.
- Partnered closely with anesthesiology and nursing teams for efficient surgical scheduling.
- Trained newly hired personnel in established surgical protocols, enhancing team effectiveness.
- Managed inventory by tracking supplies and instruments meticulously throughout the surgical process.
