Hiring Manager
Innovative Engineering Solutions
Indianapolis, IN

Dear Hiring Manager,

I am excited to submit my application for the Technical Modeler Intern role at Innovative Engineering Solutions, as I believe this opportunity aligns splendidly with my burgeoning skills and fervent enthusiasm for structural engineering.

Innovative Engineering Solutions has remarkably distinguished itself in the industry by continually pushing boundaries, as evident in your impressive portfolio that ranges from awe-inspiring healthcare buildings to cutting-edge commercial developments; this dynamic environment is precisely where I envision channeling my creativity and diligence.

In my recent academic project, I developed a 3D model utilizing Autodesk Revit, effectively demonstrating my technical prowess while collaboratively honing my abilities within a diverse team, ultimately achieving commendable feedback on clarity and execution.

During my tenure as a Research Assistant, I navigated sustainable building materials, contributing to findings that were showcased at a university conference; this experience nurtured my analytical skills while engaging with fellow researchers, solidifying my commitment to collaborative improvement.

I am eager to bring my knowledge of BIM methodologies to your projects, believing my proactive nature and willingness to learn will harmonize perfectly with your team's innovative approach.

Thank you for considering my application.

Sincerely,

Emmanuel Gallegos
