SUMMARY

Dynamic Technical Product Manager with over 6 years of experience in the financial technology sector, specializing in developing high-performance trading tools. Proven ability to lead cross-functional teams in the design and implementation of systems that enhance trading performance and workflow efficiency. Experienced in collaborating with engineering teams to create user-centric designs that prioritize speed and clarity. Adept at managing projects from inception to deployment, ensuring stakeholder communication and alignment throughout the process. Eager to leverage my expertise to drive impactful solutions at Innovative Trading Solutions.

EXPERIENCE

Product Manager

Dynamic Trading Corp 📅 January 2023 - Present 📍 San Francisco, CA

Lead design and development of innovative trading applications, focusing on user experience and operational efficiency. Drive project timelines while ensuring stakeholder alignment throughout the development lifecycle. Analyze user feedback continuously to refine product features and functionality. Manage relationships with engineering teams to deliver high-quality GUIs.

- Led design of trading applications enhancing user experience.
- Collaborated with engineers to create high-performance GUIs.
- Oversaw timelines, managing expectations effectively.
- Analyzed user feedback for product improvements.

Associate Product Manager

Tech Innovations Inc. 📅 June 2020 - December 2022 📍 Washington, DC

Assisted in redesigning trading platforms by focusing on user workflows and interface improvements. Coordinated with engineering and design teams to develop prototypes while gathering user feedback. Prioritized features based on market needs and business goals.

- Redesigned trading platforms focusing on user workflows.
- Developed prototypes with engineering and design teams.
- Managed product backlogs prioritizing based on market trends.
- Gathered and incorporated user feedback into development.

Junior Product Analyst

FinTech Solutions LLC 📅 August 2018 - May 2020 📍 New York, NY

Supported product management by creating documentation for new features and conducting market research. Collaborated with teams to implement user feedback effectively. Worked closely with cross-functional teams to address user needs in product development.

- Created specifications for new product features.
- Conducted market research to identify user needs.
- Collaborated on implementing feedback into product development.
- Supported documentation efforts for product enhancements.

PROJECTS

Trading Application Development 📅 2023

Collaborated with engineering teams to develop a new trading application that significantly improved user interaction and streamlined workflow.

Platform Redesign 📅 2022
