EXPERIENCE

Technical Support Assistant

University Project

January 2026 - Present
Los Angeles, CA

Served as a Technical Support Assistant for a university-driven initiative that directly collaborated with students and faculty to resolve technical queries. Functioned primarily via digital communication platforms, handling user inquiries efficiently. Maintained channels to enhance response fidelity and error correction by documenting client interactions systematically.

- Acknowledged by leadership for effective triage of user concerns through email and chat interfaces.
- Coordinated workflows within project teams to guarantee timely resolution of service requests, showcasing the ability to navigate complex situations.
- Compiled comprehensive technical documentation that provided future user guidance backed by real interactions.
- Organized training initiatives to elevate peer understanding regarding device functionalities, improving overall product literacy.
- Identified patterns in user feedback that substantiated operational efficiency enhancements.
- Strived for exceptional customer care with unwavering professionalism, bolstering service quality.

Customer Service Research Intern

Academic Research

June 2025 - December 2025
Los Angeles, CA

Contributed critical insights during an internship dedicated to researching customer service methodologies pertinent to tech support scenarios. Engaged with customers to curate feedback enhancing comprehension over service delivery. Collaboratively built relevant training materials to instill best practices among incoming customer service hires based on analytical findings.

- Synthesized research data that elucidated trending service strategies whilst boosting user engagement.
- Drafted nicotine training content derived from customer feedback, resulting in enhanced onboarding experiences.
- Facilitated engaging dialogues with customers using surveys, converting qualitative insights into actionable managerial reports.
- Collaborated effectively within multi-disciplinary frameworks to showcase research at formal conferences, promoting institutional representation.
- Posited suggestions for streamlining support workflows informed by detailed survey assessments.
- Developed innovative means for driving efficiency aimed distinctly at improving service processes.
