EXPERIENCE

Tech Support Specialist

Advanced Tech Solutions May 2025 - Present Aurora, IL

Provide essential tech support across various departments while managing hardware lifecycles. Collaborate closely with IT teams to streamline equipment deployment strategies and enhance user experiences. Continually address and resolve software issues while adhering to safety protocols and organizational policies.

- Collaborate with cross-functional teams ensuring smooth and timely equipment deployments.
- Provide responsive troubleshooting for diverse software-related issues for end users.
- Maintain clear documentation supporting compliance with organizational procedures and protocols.
- Foster a culture of reliability through frequent team interactions and feedback sessions.

IT Intern

Tech Innovators Group June 2024 - April 2025 Naperville, IL

Supported the IT department in preparing devices prior to their allocation to educational institutions. Conducted organization-wide inventory processes that ensured availability and readiness of necessary tech tools. Emphasized workspace tidiness and safety adherence during each operational phase.

- Executed cleaning and preparation tasks critical for classroom-ready technology.
- Performed regular inventory assessments on hardware and software components.
- Helped maintain a structured work environment in alignment with safety regulations.
- Developed familiarity with inventory management systems improving task efficiency.
