SUMMARY

Detail-oriented data analyst with over three years managing provider demographic information in healthcare settings. Demonstrated proficiency in database management to ensure data accuracy and compliance, particularly regarding HIPAA regulations. Skilled in analyzing and inputting data while maintaining comprehensive records. Collaborative partnerships across departments foster efficient communication and enhanced service delivery. Strong commitment to continuous improvement reflects dedication to organizational goals of efficiency and excellence. Eager to leverage extensive experience in a temporary role to contribute positively to Innovative Health Solutions.

EXPERIENCE

Provider Data Analyst

January 2021 – Present

NextGen Health Services

Chicago, IL

Manage provider demographic data within the organizational database while ensuring accuracy and compliance. Collaborate effectively to address inquiries from providers, enhancing operational processes. Execute special projects based on data validation and electronic communications for service delivery improvements.

- Regularly update and maintain provider records adhering strictly to operational guidelines.
- Analyze new contractual data for providers and input them within sensitive timelines.
- Respond promptly to ad hoc requests from internal and external stakeholders.
- Demonstrate consistent adherence to established HIPAA compliance requirements.

Junior Data Analyst

June 2019 – December 2020

HealthWise Solutions

Chicago, IL

Assisted in maintaining accurate provider metrics aimed at improving quality management protocols via diligent database integrity efforts. Supported various departments in responding to questions concerning provider data, ensuring seamless communication.

- Supported streamlined workflows for improved provider participation processes.
- Performed thorough audits of existing database entries to enhance data quality.
- Facilitated effective internal communication between multiple departments.
- Gained recognition for proactive involvement in resolving complex data issues swiftly.
