STRENGTHS

-  **Analytical Skills**
Diagnostics enabled rapid issue identification in diesel engines; peers noticed reliable problem resolution patterns.
-  **Team Collaboration**
Evoked positive teamwork during engine overhauls, often becoming the point person for guiding others through the process.
-  **Safety Awareness**
Prioritized ecological compliance, actively instilling safety standards to limit workplace accidents.
-  **Technical Mentorship**
Shared expertise with newcomers, creating a supportive environment fostering technical skill enhancement.
-  **Problem Resolution**
Streamlined workflows led to fewer delays; recognition received for adept handling of urgent repair issues.

SKILLS

- Diesel Engine Diagnostics
- Preventative Maintenance
- Fleet Maintenance Software
- Problem Solving Team Mentoring
- Safety Compliance
- Troubleshooting
- Repair Techniques
- Equipment Inspection
- Client Communication
- Project Coordination
- Regulatory Compliance
- Workshop Efficiency

SUMMARY

Skilled Trailer Mechanic with over 5 years of experience excelling in heavy-duty commercial diesel repair and maintenance. Engaged in troubleshooting, diagnostics, and efficient repairs on various fleet equipment including tractors and trailers. Committed to performing preventive maintenance according to DOT standards, ensuring optimal vehicle safety and performance. Proven track record in mentoring junior technicians, promoting a culture of teamwork, technical excellence, and safety compliance within operational environments. Strong analytical and problem-solving skills lead to reducing downtime and improving service delivery.

EXPERIENCE

Trailer Mechanic

Fleet Maintenance Solutions  June 2021 - Present  Charlotte, NC

- Serve as a critical member of the maintenance team, focusing on diagnosing and repairing diesel equipment while upholding quality standards. Lead initiatives that drive safety practices and enhance workshop efficiency.
- Conduct comprehensive diagnostics on diesel vehicles, ensuring adherence to performance and safety benchmarks.
 - Perform routine preventative maintenance as per DOT standards, enhancing reliability for fleet operations.
 - Spearhead training and mentorship for new technicians, fostering growth and technical skill development among team members.
 - Efficiently manage road calls, coordinating with third-party vendors and internal partners to resolve equipment issues swiftly.
 - Utilize fleet maintenance software diligently for documenting repairs, ensuring compliance and operational integrity.
 - Promote workplace safety by adhering to established protocols, maintaining an organized and clean work environment.

Diesel Technician

Heavy Duty Diesel Mechanics  January 2019 - May 2021  Greensboro, NC

- Specialized in thorough diagnostics and repair of diesel vehicles, contributing significantly to lowering vehicle downtime and boosting customer satisfaction through effective service delivery.
- Executed complex diagnostics on a range of diesel machinery, leading to enhanced shop performance.
 - Collaborated with skilled technicians on major overhaul projects, improving collective technical capabilities.
 - Introduced a tracking system for more efficient maintenance behavior, thereby increasing preventative care compliance.
 - Provided guidance and training to newer mechanics on using diagnostic tools effectively, raising overall team productivity.
 - Ensured strict compliance with OSHA and EPA regulations throughout all repair processes, reinforcing a culture of responsibility.
 - Played a role in developing improved safety measures, substantially decreasing workplace incidents.

Diesel Mechanic

Advanced Fleet Services  August 2016 - December 2018  Winston-Salem, NC

- Focused on technical repairs of heavy-duty diesel trucks, ensuring high-quality performance under regulated conditions while providing excellent customer service and communication.
- Performed troubleshooting and repairs on diesel trucks, guaranteeing quality assurance and customer satisfaction.
 - Maintained accurate documentation regarding repairs and parts availability, aiding inventory control and resource management.
