SUMMARY

Dedicated Pharmacist with robust training and clinical experience in pediatric pharmacy. Knowledgeable about medication protocols, quality assurance, and best practices for patient safety. A recent graduate targeting innovative contributions to medication management within hospital settings. Proven commitment to personalized care through evidence-based practice while promoting collaboration among healthcare teams. Eager to deliver exceptional pharmaceutical services backed by a strong academic foundation from an ACPE accredited program. Passionate about evolving in fast-paced environments while continuously enhancing skills in medication safety, dispensing accuracy, and comprehensive patient assessments.

EXPERIENCE

Pharmacy Intern

University Research Lab 📅 May 2025 – May 2026 📍 Champaign, IL

Supported clinical pharmacy operations through direct involvement in evaluating pediatric medication regimens. Engaged in personalized drug therapy planning based on comprehensive patient assessments conducted in collaboration with seasoned pharmacists.

- Collaborated with the healthcare team to evaluate pediatric patients' medication histories, reinforcing safe dosing practices that comply with current guidelines.
- Provided insightful recommendations during medication reconciliations, ensuring smooth transitions of care and optimizing health outcomes.
- Assisted in crafting educational resources aimed at increasing awareness regarding pediatric drug safety among healthcare providers.
- Supervised pharmacy technicians, maintaining high standards in medication preparation and adhering to strict operational regulations.
- Participated in routine inspections of formulary stocks to verify compliance with medication dispensing protocols.
- Demonstrated effective communication skills leading discussions on essential aspects of pediatric pharmacotherapy.

Pharmaceutical Research Assistant

Academic Research 📅 September 2024 – May 2025 📍 Champaign, IL

Conducted vital research targeting pediatric pharmacotherapeutics as part of early investigative efforts within a reputable institution. Contributed substantially toward understanding medication interaction implications across diverse demographic settings.

- Executed research-driven assessments surrounding pediatric medication interactions, contributing findings to significant academic publications.
- Analyzed complex data sets tied to laboratory metrics, reinforcing informed clinical decisions impacting tailored patient-centered care.
- Engaged in collaborative meetings with faculty members focusing on advancing medication management strategies within pediatric medical frameworks.
- Developed materials and presentations articulating research outcomes effectively communicated at notable academic conferences.
- Regularly reviewed clinical protocols, recommending impactful modifications improving the pediatric medication safety landscape.
- Utilized pharmacy information systems, honing proficiency in managing and processing electronic medication orders.
