SUMMARY

Dedicated and compassionate Registered Nurse with over 2 years of focused experience in interventional radiology and comprehensive patient care. Proven ability to excel in fast-paced environments while upholding high standards of quality and patient safety. Expertise includes compliance, patient education, and effective communication. Commitment to continuous professional development drives efforts to deliver exceptional healthcare services. This role includes participation in clinical ladder programs and the pursuit of a wide network for career advancement. Excited about leveraging skills to contribute positively to patients' lives and thrive in new opportunities.

EXPERIENCE

Interventional Radiology Intern

University Research Lab 📅 June 2025 - Present 📍 Milwaukee, WI

Support interventional radiology team by preparing equipment and assisting during procedures. Enhance patient outcomes by actively engaging in multidisciplinary care planning. Monitor vital signs and educate patients to empower them through their treatment journey.

- Assisted in preparation and execution of interventional radiology procedures under supervision, boosting patient safety and efficiency.
- Collaborated with a dedicated team to develop personalized care plans focusing on individual patient needs.
- Conducted thorough assessments and monitored vital signs, providing data critical for informed medical decisions.
- Engaged patients in educational settings to explain procedures, ensuring clarity on risks and recovery expectations.
- Utilized electronic health records effectively to maintain accurate patient documentation and interactions.
- Participated in quality improvement initiatives leading to notable reductions in procedural complications.

Patient Care Technician

Cure Health Services 📅 January 2024 - May 2025 📍 Cudahy, WI

Provided empathetic, hands-on care to patients, ensuring comfort while empowering autonomy. Supported nursing staff by executing praise-worthy teamwork and safety-focused procedures.

- Delivered direct care, assisting patients with daily activities including bathing and mobility, maintaining dignity.
- Monitored conditions closely, promptly reporting changes to nursing teams for rapid response interventions.
- Implemented strict infection control protocols resulting in significant decrease in hospital-acquired infections.
- Aided nursing staff in various procedures, increasing overall operational efficiency and enhancing workflows.
- Trained new personnel on effective patient care methodologies and facility policies fostering collaboration.
- Built rapport with patients and families, delivering emotional support and crucial education leading to heightened satisfaction.
