Hiring Manager
CareFirst Nursing Solutions
Cincinnati, OH

Dear Hiring Manager,

I am thrilled to apply for the Travel Nurse - LPN-LVN position at CareFirst Nursing Solutions. This role perfectly aligns with my fervent desire to enhance patient outcomes while delivering compassionate care. My experience in addiction and MAT nursing has prepared me to tackle challenges head-on. Creating nurturing environments for residents is my forte.

I've partnered with dedicated supervisors. Together, we've fostered supportive spaces for patients battling substance use disorders. Delivering medications as directed by physicians, I ensure every treatment plan is meticulously followed. While I've excelled, I occasionally doubt my abilities. I believe that each experience makes me stronger and more resilient.

During my tenure at Community Health Services, I conducted Mantoux Tests, interpreting results promptly. Scheduling patient appointments was a breeze. I made communication flow seamless. Patients appreciated my commitment to their health. In training staff, I've shared knowledge about CPR and safety protocols. Most teams have thrived under this guidance.

Patients often express gratitude for the education I provide regarding methadone maintenance therapy. They seek clarity about side effects, and I am there to help. Gaining their trust motivates me. Working alongside interdisciplinary teams enriches my insights. We collaborate to ensure every aspect of patient care is covered.

Thank you for considering my application.

Sincerely,

Luciana Payne
