- Patient Reporting

SUMMARY

Compassionate Registered Nurse with over five years' experience in telemetry and critical care. Proven track record delivering top-notch patient care, collaborating effectively with multidisciplinary teams. Committed to fostering supportive environments for patients and their families. Seeking a travel nursing role to further enhance care delivery in diverse settings. Experienced at utilizing the nursing process to provide care tailored specifically for each patient's needs. Engaging with patients, educating them on health management strategies remains a core focus. Ready to positively impact patient outcomes within new healthcare communities.

EXPERIENCE

Telemetry Nurse

CareFirst Medical Center 📅 January 2022 - Present 📍 Naperville, IL

Current role focuses on providing exceptional care in a telemetry unit. Responsibilities include monitoring vital signs and addressing patient concerns promptly while collaborating with healthcare professionals to create effective care plans.

- Deliver direct patient care through comprehensive monitoring and assessments.
- Work closely with physicians in creating personalized healthcare strategies.
- Educate families about post-discharge care, promoting better recovery outcomes.
- Engage in interdisciplinary teamwork that strengthens patient support systems.

Registered Nurse

St. Joseph's Hospital 📅 June 2019 - December 2021 📍 Peoria, IL

Managed patient care in a fast-paced telemetry environment, supporting multiple patients as part of a dedicated team. Participated actively in initiatives designed to enhance care quality and elevate patient satisfaction.

- Participated in staff training, improving team dynamics and performance.
- Implemented quality improvement processes that boosted patient care standards.
- Supported medication administration and data recording accurately.
- Delivered emotional and psychological support to patients, enhancing their comfort levels.

Nursing Intern

Springfield General Hospital 📅 June 2017 - May 2019 📍 Springfield, IL

Assisted seasoned nurses in delivering holistic patient care, engaging in both technical tasks and patient interactions. Developed skills in telemetry monitoring while providing bedside support.

- Assisted with medication administration under supervision, promoting safety.
- Facilitated patient monitoring related to telemetry equipment.
- Engaged individuals in educational chats about their health issues regularly.
- Gained insights into best practices in managing acute conditions through hands-on learning.

LEADERSHIP & AWARDS

- Recognized Employee of the Month for outstanding patient care and commitment to excellence at CareFirst Medical Center.
- Quality Improvement Award for spearheading a patient satisfaction initiative at St. Joseph's Hospital.
