STRENGTHS

- ❤️ **Compassionate Patient Care**
Displayed empathy and thoroughness in patient interactions, leading many to express appreciation for personalized attention and support.
- 🔄 **Adaptable Worker**
Thrived in shifting clinical environments, gaining praise from supervisors for ability to rapidly adjust therapeutic approaches as needed.
- 👥 **Team Collaboration**
Fostered cooperative relationships within multidisciplinary teams, becoming known as a reliable resource for complex case discussions.
- 💬 **Strong Communication Skills**
Articulated treatment goals clearly to both patients and colleagues, resulting in improved understanding and care consistency.
- 💡 **Continuous Learner**
Engaged in ongoing education initiatives, receiving recognition for commitment to adopt new skills and therapeutic techniques.

SKILLS

- Patient Assessment
- Rehabilitation Techniques
- Team Collaboration
- Patient Education
- Documentation and Compliance
- Adaptability in Clinical Settings
- Treatment Planning
- Professional Development
- Ethical Standards Management

SUMMARY

Dedicated Physical Therapist Assistant with extensive training in patient rehabilitation and recovery strategies. Currently engaged in a travel PTA role, delivering quality care to diverse patient populations while adapting to varying clinical environments. Holds an Associate degree in Physical Therapy and an active state license, with BLS certification. Committed to enhancing patient mobility and overall well-being through targeted therapeutic interventions and collaborative support with licensed Physical Therapists.

EXPERIENCE

Physical Therapy Assistant

University Project 📅 January 2026 - Present 📍 Remote

Assisted patients recovering from injuries by collaborating with medical professionals, conducting assessments, and implementing effective therapy strategies. Adapted treatment methods based on varied clinical requirements to enhance rehabilitation outcomes.

- Collaborated closely with a team to develop tailored treatment plans for diverse patients focused on movement and independence.
- Implemented effective rehabilitation protocols under supervision, ensuring adherence to health and safety standards.
- Conducted thorough patient assessments to monitor progress which led to significant improvements in individual recovery times.
- Educated patients on prescribed exercises and recovery techniques, fostering enhanced participation in their progress.
- Maintained detailed documentation of patient progress, effectively communicating insights to supervisors for better coordination of care.
- Participated in advanced training sessions, contributing effectively to the professional development and skill enhancement of team members.

Research Assistant

Academic Research 📅 July 2025 - December 2025 📍 Remote

Supported research initiatives aimed at evaluating physical therapy effectiveness in post-operative recovery settings. Engaged actively in compiling data, reviewing literature, and enhancing project outputs through collaboration and communication.

- Assisted in evaluating the efficacy of various physical therapy interventions for post-operative patients, enriching data collection processes.
- Contributed to comprehensive literature reviews that increased the reliability of findings and recommendations made during research.
- Teamed with peers for presenting significant research results at a national conference, receiving commendations for clarity and insight.
- Authored educational materials based on key research outcomes, increasing patient comprehension and engagement regarding rehabilitation.
- Managed research compliance with ethical standards around data handling, ensuring integrity and accuracy in documentation.
- Facilitated interprofessional partnerships to gather pertinent feedback on methodologies, creating a supportive research environment.
