SUMMARY

Compassionate Registered Nurse with over five years of acute care experience, specializing in dialysis. Proven success in delivering quality nursing care and collaborating within multidisciplinary teams for optimal patient outcomes. Known for educating patients and families on dialysis procedures, creating understanding and alleviating concerns. Maintains accurate patient documentation while ensuring compliance with healthcare regulations. Enthusiastic about ongoing training and professional development to remain up-to-date in the dynamic medical field. Eagerly seeks opportunities to join a dedicated team, contributing towards excellent patient care and positive health impact.

EXPERIENCE

Registered Nurse - Dialysis

Riverbend Medical Center 📅 June 2023 - Present 📍 Madison, WI

Functioning as a pivotal member of the dialysis unit, responsible for comprehensive patient assessments and developing treatment plans to ensure safe and effective care delivery.

- Managed patient assessments and ongoing treatment plans tailored to individual needs, enhancing overall care.
- Collaborated with nephrologists and other healthcare providers, improving patient outcomes through coordinated approaches.
- Educated patients and families on dialysis processes, increasing adherence to care and reducing anxiety.
- Ensured precise maintenance of patient records complying with healthcare standards, promoting accountability and safety.
- Implemented best practices during staff training, enhancing skill levels among new nurses in dialysis techniques.
- Monitored vital signs and promptly addressed any alarming changes, guaranteeing timely interventions.

Registered Nurse

Willow Creek Hospital 📅 April 2021 - May 2023 📍 Janesville, WI

Provided exceptional nursing care on a high-volume medical-surgical unit, focusing on enhancing patient safety and comfort through evidence-based practices.

- Delivered holistic nursing care aimed at patient comfort and safety within a bustling medical-surgical environment.
- Actively engaged in patient care plan implementation alongside physicians, supporting interdisciplinary collaboration.
- Conducted detailed patient assessments, documenting vital signs and communicating significant changes proactively.
- Contributed to quality improvement projects that refined patient care protocols, resulting in increased operational efficiency.
- Trained and guided nursing students and newly hired colleagues, nurturing a culture of learning and support.
- Regular participation in educational workshops ensured current knowledge of best practices in nursing care.

Nursing Assistant

Sunset Valley Health 📅 January 2019 - March 2021 📍 Milwaukee, WI

Supported clinical staff while delivering care in long-term settings, focusing on aspects of daily living activities and enhanced patient experiences.

- Assisted nursing staff in providing daily care services, optimizing the patient's well-being in a compassionate manner.
